3. **End-Industry Dependence Risk:** We are dependent on the performance of the industries our customers operate in, including renewables, artificial intelligence infrastructure, oil & gas, consumer electronics, and defence & aerospace industries. Demand for our products across all three verticals is particularly sensitive to changes in government policies affecting the underlying end industries, including policies related to energy transition, fiscal incentives, domestic manufacturing and trade policies. Any adverse changes in such policies could have an adverse effect on our business, financial condition, cash flows and results of operations.

8. **Product Quality and Liability Risk:** We are subject to strict performance and quality requirements. Defects, perceived defects or failures to meet customer specifications, whether attributable to us or our suppliers, could result in order cancellations, recalls, liability and reputational harm.

9. **Global Manufacturing Footprint Risk:** As of June 30, 2026 we operated 26 own manufacturing facilities across India, Spain, the USA and Germany. Any adverse changes in economic or regulatory conditions affecting our supply chains in these jurisdictions could negatively affect our results of operations.

10. **Customer Order Visibility Risk:** We do not have firm, long-term purchase commitments with many of our customers. Our purchase orders are typically short-term and may be amended, rescheduled or cancelled, and customer forecasts are non-binding. Any order reductions, cancellations or delays may adversely affect our revenue visibility, capacity utilisation and margins.

11. **Offer Related Risk:** The Offer also consists of an offer for sale aggregating up to ₹ 21,823.28 million (approximately 43.54% of the Offer Size at upper end of the Price Band), the proceeds of which will not be available to our Company.

12. Our Company proposes to utilise an estimated amount of ₹21,600 million from the Net Proceeds towards repayment/ prepayment, in part or full, of all or a portion of certain borrowings availed by our Company and investing in certain of our Subsidiaries, in order to repay/ prepay in full or in part, certain or all of the borrowings availed by these Subsidiaries. Considering that the Net Proceeds will be utilised towards repayment of borrowings of our Subsidiaries, namely (i) Sharp Tanks and Structurals Private Limited; (ii) Terra91 International Private Limited; (iii) Smile Electronics Limited; (iv) Kryfs Power Components Limited; (v) Kryfs Transformers Private Limited; (vi) Unimacts Global LLC; (vii) Zetwerk Manufacturing SG Pte. Ltd.; (viii) Zap91 Solar India Private Limited; and (ix) Zet Town India Private Limited ("**Specified Subsidiaries**"), our Company shall deploy the Net Proceeds, to the extent of ₹8,600 million, for this Object in the form of debt investments, which involve extending inter-corporate loans to the Specified Subsidiaries. This is an Offer in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations. This Offer is being made through the Book Building Process in compliance with Regulation 6(2) of the SEBI ICDR Regulations wherein in terms of Regulation 32(2) of the SEBI ICDR Regulations not less than 75% of the Net Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("**QIBs**" and such portion the "**QIB Portion**") provided that our Company in consultation with the BRLMs, have allocated up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations ("**Anchor Investor Portion**"), of which 40% of the Anchor Investor Portion within the 60% of allocation of the QIB Portion to Anchor Investors, was reserved in the following manner: (i) 33.33% was reserved for domestic Mutual Funds, and (ii) 6.67% was reserved for Life Insurance Companies and Pension Funds. In the event of under-subscription in the reserved category for Life Insurance Companies and Pension Funds, the balance Equity Shares was allocated to domestic Mutual Funds. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (excluding the Anchor Investor Portion) ("**Net QIB Portion**"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors) including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining QIB Portion for proportionate allocation to QIBs. Further, not more than 15% of the Net Offer shall be available for allocation to Non-Institutional Bidders ("**NIBs**") of which (a) one- third portion shall be reserved for Bidders with application size of more than ₹0.20 million and up to ₹1.00 million; and (b) two-thirds of the portion shall be reserved for Bidders with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of such sub-categories may be allocated to Bidders in other sub-category of the NIBs in accordance with SEBI ICDR Regulations and not more than 10% of the Net Offer shall be available for allocation to Retail Individual Bidders ("**RIBs**") in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer Price. Further, Equity Shares will be allocated on a proportionate basis to Eligible Employees applying under the Employee Reservation Portion, subject to valid Bids being received from them at or above the Offer Price (net of employee discount). All potential Bidders (except Anchor Investors) are required to mandatorily utilise the Application Supported by Blocked Amount ("**ASBA**") process by providing details of their respective ASBA accounts and UPI ID (in case of UPI Bidders using the UPI Mechanism), in which case the corresponding Bid Amounts will be blocked by the SCSBs or under the UPI Mechanism, as applicable to participate in the Net Offer. Anchor Investors are not permitted to participate in the Anchor Investor Portion of the Net Offer through the ASBA process. For details, see ***"Offer Procedure"*** on page 663 of the RHP.

This Offer Opening Public Announcement cum Corrigendum to the Detailed Public Statement (**"Advertisement"**) is being issued by VC Corporate Advisors Private Limited (**"Manager to the Offer"**), on behalf of Mr. Sachin Ishwarchand Goyal (**"Acquirer 1"**), Mr. Numan Sachin Goyal (**"Acquirer 2"**) and Mr. Salil Vijay Sathe (**"Acquirer 3"**) [hereinafter collectively referred to as the **"Acquirers"**] pursuant to Regulation 18(7) of the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 and subsequent amendments thereto [**"SEBI (SAST) Regulations"**] in respect of Open Offer (**"Offer"**) for the acquisition of upto 27,68,671 (Twenty-Seven Lakhs Sixty-Eight Thousand Six Hundred and Seventy-One) fully paid-up equity shares of J.A. Finance Limited (hereinafter referred to as the **"JAFL"** or the **"Target Company"**) of face value of Rs. 10/- each, representing 26.00% of the total paid-up equity and voting share capital of the Target Company. This advertisement is to be read in conjunction with the Public Announcement (**"PA"**) dated January 28, 2025, Detailed Public Statement (**"DPS"**) dated February 04, 2025 as published in the Financial Express (English Daily) all editions, Jansatta (Hindi Daily) all editions, Mumbai Lakshadeep (Marathi Daily) Mumbai edition and Arthik Lipi (Bengali Daily) Kolkata edition on February 04, 2025, Draft Letter of Offer (**"DLOF"**) dated February 11, 2025 and the Letter of Offer (**"LOF"**) dated September 30, 2026 which is available on the websites of the Securities and Exchange Board of India (**"SEBI"**), both the Stock Exchanges where the equity shares of the Target Company are presently listed i.e. BSE Limited (**"BSE"**) and The Calcutta Stock Exchange Limited (**"CSE"**)

1. **Offer Price:** The Offer Price of Rs. 44.82 (Rupees Forty-Four and Eighty-Two Paise Only) per fully paid-up equity share, including an interest of Rs. 4.82 (Rupees Four and Eighty-Two Paise Only) per equity share, payable in cash.
2. The Committee of Independent Directors (**"IDC"**) of the Target Company have perused the PA dated January 28, 2025, DPS dated February 04, 2025 as published on February 04, 2025, DLOF dated February 11, 2025 and LOF dated September 30, 2026 issued by the Manager to the Offer on behalf of the Acquirers in relation to the Open Offer. IDC has opined only on the pricing of the Offer. The IDC is of the opinion that the Offer Price of Rs. 44.82 (Rupees Forty-Four and Eighty-Two Paise Only) per fully paid-up equity share, including an interest of Rs. 4.82 (Rupees Four and Eighty-Two Paise Only) per equity share, offered by the Acquirers is in accordance with the SEBI (SAST) Regulations and appears to be fair and reasonable.

   The recommendation of IDC dated October 13, 2026 was published on Wednesday, October 14, 2026 in the Financial Express (English Daily) all editions, Jansatta (Hindi Daily) all editions, Mumbai Lakshadeep (Marathi Daily) Mumbai edition and Arthik Lipi (Bengali Daily) Kolkata edition.
3. The Offer is not a competing offer in terms of Regulation 20 of the SEBI (SAST) Regulations. Further, there has been no competitive bid to this Open Offer.
4. Niche Technologies Private Limited, being the Registrar to the Offer, has confirmed that the Letter of Offer was dispatched electronically on Friday, October 09, 2026, to all the Public Shareholders, other than the Acquirers and the Promoters and Promoter Group of the Target Company, whose e-mail IDs were registered with the Depositories and/or the Target Company and whose names appeared on the Register of Members as on Monday, October 05, 2026 (**"Identified Date"**). In case where the e-mails were bounced back or could not be delivered, physical copies of the Letter of Offer were dispatched on Monday, October 12, 2026.
5. Please note that a copy of the LOF along with the Form of Acceptance-cum-Acknowledgement and SH-4 is available on the website of SEBI at www.sebi.gov.in, BSE at www.bseindia.com, CSE at www.cse-india.com and Manager to the Offer at www.vccorporate.com. Shareholders can also apply by downloading such forms from the above-mentioned websites. Further, in case of non-receipt/ non-availability of the Form of Acceptance, the application can be made on plain paper along with the following details:
   a. Public Shareholders holding Equity Shares in dematerialized form who wish to tender their Equity Shares under the Open Offer shall approach their respective stock brokers (**"Selling Broker"**) registered with BSE and intimate their intention to tender such Equity Shares during the normal trading hours of the secondary market, during the Tendering Period, in accordance with the procedure as mentioned in paragraph 8.(n) of the LOF.
   b. Public Shareholders whose brokers are not registered with BSE are able to tender their Equity Shares through the Acquirers' Broker or the Buying Broker.
6. In terms of Regulation 16(1) of the SEBI (SAST) Regulations, the DLOF was submitted to SEBI on February 11, 2025. We have received the final observations from the SEBI in terms of Regulation 16(4) of the SEBI (SAST) Regulations vide its observation letter no. SEBI/HO/CFD/CFD-RAC-DCR2/P/OW/2025/0000019269/1 dated July 18, 2025 which has been duly incorporated in the LOF.
7. **Any other material change from date of the PA (Material updates):**
   a. **Upward revision in Offer Price:** The Offer Price of Rs. 44.82 (Rupees Forty-Four and Eighty-Two Paise Only) per fully paid-up equity share, including an interest of Rs. 4.82 (Rupees Four and Eighty-Two Paise Only) per equity share, pursuant to delay in receipt of prior approval from the RBI, resulting in delay of 440 days in making payment to the eligible public shareholders of JAFL. The interest has been calculated at the rate of 10% (ten percent) per annum for the period of 440 days i.e., Rs. 4.82 per equity share, which has been added to the earlier mentioned Offer price and hence, the final Offer Price stands at Rs. 44.82 per equity share. Further, the calculation of the Offer Price after taking into consideration of interest calculation thereon @ 10% p.a. has also been suitably disclosed in para 6.1.4 on the page no.'s 20 & 21 of the LOF.
   b. **Revision in Maximum Consideration:** Consequent to upward revision in Offer Price as mentioned above, the revised maximum consideration payable by the Acquirers to the public shareholders, assuming full acceptance of the Offer is Rs. 12,40,91,834.22 (Rupees Twelve Crores Forty Lakhs Ninety-One Thousand Eight Hundred Thirty-Four and Twenty-Two Paise Only) for acquisition of 27,68,671 (Twenty-Seven Lakhs Sixty-Eight Thousand Six Hundred and Seventy-One) equity shares at a price of Rs. 44.82 (Rupees Forty-Four and Eighty-Two Paise Only) per equity share, including an interest of Rs. 4.82 (Rupees Four and Eighty-Two Paise Only) per equity share.
   c. **Revision in Escrow Amount:** Pursuant to revision in Offer Price and increase in maximum consideration, the Acquirers have deposited an additional amount of Rs. 33,40,000/- (Rupees Thirty-Three Lakhs and Forty Thousand Only) in the escrow account on October 03, 2026, maintained with the Escrow Banker, i.e., HDFC Bank Limited. Therefore, total value of escrow amount is Rs. 3,10,27,000 (Rupees Three Crores Ten Lakhs and Twenty-Seven Thousand Only) being more than 25% of the total consideration payable by the Acquirers to the public shareholders, assuming full acceptance of the Offer.
   d. As on the date of the PA, the sale shares were under lock-in pursuant to the BSE Direct Listing norms wherein the entire promoter shareholding shall be kept under lock-in for a period of 3 years from the date of listing of the equity shares of the Target Company at BSE. In compliance with such regulatory requirement, the entire sale shares held by the Promoter Sellers i.e., 63,78,303 equity shares were locked-in till 30.04.2026. However, there is no lock-in on the Sale Shares held by the Sellers of the Target Company as on date of the LOF. In this regard, we have updated lock-in related paras i.e., 3.1.9 (e), 3.2.7, 5.4 and 7.6 on page no.'s 9, 11, 15 and 22, respectively in the LOF.
   e. We have updated the directorship details of Acquirer 1 and Acquirer 2 in Bloomstone Real Estate Private Limited in para no.'s 4.1(e) and 4.2(d) on the page no. 13 of the LOF, respectively, as the said company had been struck off from the records of the Registrar of Companies and had ceased its operations on account of there being no foreseeable potential business opportunities.
   f. We have updated para 4.4 on page no. 14 of the LOF with respect to relationship between the Acquirers.
   g. The equity shares of the Target Company are currently under the Enhanced Surveillance Measure (**"ESM"**) stage 1 on BSE as disclosed under point no. 5.5 on page no. 15 of the LOF.
   h. We have updated para 5.10 on page no. 16 of the LOF with respect to details of Board of Directors of the Target Company from the date of PA to till date of the LOF.
   i. We have updated para 5.12 on page no.'s 16 & 17 of the LOF, with respect to financial information of the Target Company.
   j. The Target Company had filed a waiver application with the BSE vide its letter dated 21.02.2025 for waving the penalties, levied by BSE for non-compliances / delayed compliances under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended and the same was partially waived by the BSE. The revised penalty payable by the Target Company was reduced to Rs. 1,48,680/- (Rupees One Lakh Forty-Eight Thousand Six Hundred and Eighty Only), including GST, and the same has been paid by the Target Company on 22.01.2026. The same has been disclosed in para no. 5.16 on page no. 19 of the LOF. Further, as confirmed by the Target Company, there are no further instances of penalties levied by the Stock Exchanges.
   k. We have modified point (g) of para 8. (n) on the page no. 27 of the LOF with respect to Procedure for tendering shares held in Dematerialized Form. The modified point is as follows:

      "8. n. (g). Custodian(s) should deposit shares/ Units through the Early Pay-in mechanism provided by Depositories system before confirmation of the bid orders placed by the Trading Members the bids/ orders. The custodians shall either confirm or reject orders not later than the time provided by the Stock Exchange on the last day of the Offer Period. Thereafter, all unconfirmed orders shall be deemed to be rejected."
   l. We have inserted point no. (c) under para 8.(w) on page no. 28 in the LOF. The newly inserted point is produced herein below:

      "8. w. (c) In case of certain client types viz. NRI, Foreign Clients etc. (where there are specific RBI and other regulatory requirements pertaining to funds pay-out) who do not opt to settle through custodians, the funds pay-out would be given to their respective Selling Broker's settlement accounts for releasing the same to their respective shareholder's account onwards. For this purpose, the client type details would be collected from the Registrar to the Offer."
   m. We have revised the para 9 on page no.'s 28 & 29 of the LOF with respect to the details of Notes on Taxation to reflect the changes pursuant to the Income Tax Act, 2025.
   n. We have inserted point no.'s (xi.) and (xii) under para 10 under the head of Documents for Inspection on page no. 30 of the LOF with respect to RBI approvals. The newly inserted points are as follows:

      "10. xi) RBI approval Letters receipt in relation to the proposed acquisition of the shareholding / control of the Target Company and proposed change in management of the Target Company."

      "10. xii) Public notice to be published pursuant to receipt of RBI Approval letters."
   o. The Target Company, along with the Acquirers, issued a public notice dated October 12, 2026, which was published on October 13, 2026, in Financial Express (English Daily) all editions and Arthik Lipi (Bengali Daily) Kolkata edition, in compliance with Chapter II, Paragraph 6(2) of the Reserve Bank of India (Non-Banking Financial Companies - Acquisition of Shareholding or Control) Directions, 2025, as amended from time to time, and other applicable regulatory requirements, and as advised by the Reserve Bank of India, pursuant to receipt of the RBI's approval for change in shareholding/control of the Company and for change in management of the Target Company.
8. **Details regarding the status of the Statutory and other approvals:**

   The Target Company, being a Non-Deposit taking Non-Banking Financial Company registered with the Reserve Bank of India is mandated in an event of any change in shareholding / control and change in management of Non-Banking Finance Company, to seek and obtain prior approval of Reserve Bank of India. Reserve Bank of India has granted approval vide letter no. KOL.DOR.NO.S1110/01-01-001/2026-27 dated September 30, 2026 for change in shareholding/control of the Target Company, and vide letter nos. LENDER EXAMINING THE RULING

SC turns down YES Bank's AT1 bond write-off

CHRISTINA TITUS & KSHIPRA PETKAR
Mumbai, October 15

THE SUPREME COURT on Thursday upheld the Bombay High Court's decision to quash the ₹8,415-crore write-off of YES Bank's additional tier-1 (AT1) bonds, ruling that the bank's administrator lacked the authority to extinguish the instruments under the reconstruction scheme.

A bench comprising Justices Dipankar Datta and Augustine George Masih dismissed appeals filed by YES Bank, the Reserve Bank of India (RBI) and the finance ministry challenging the high court's January 2023 judgment.

"We see no reason to interfere with the impugned judgment," the apex court said, adding that the annual coupon rate on the bonds would remain unaffected.

In a notification to the stock exchanges, YES Bank said it was in the process of obtaining and examining the final judgment and assessing its implications. The bank said it would make further disclosures as required. The ruling triggered a sharp sell-off in YES Bank shares, which plunged 14.53%— their steepest single-day fall in over six years — to close at ₹18.12 on the NSE.

The ₹8,415-crore write-off is equivalent to nearly two-and-a-half years of YES Bank's annual net profit, based on its FY26 earnings of ₹3,476 crore.

Kotak Mahindra AMC said, "Kotak Medium Term Fund and Kotak Credit Risk Fund hold YES Bank AT1 bonds that were valued at zero following their write-off during the reconstitution of YES Bank."

Jio targets global expansion with asset-light push

URVI MALVANIA
Mumbai, October 15

JIO PLATFROMS IS looking to turn its technology capabilities into a new engine of growth, with plans to roll out 6G through software upgrades rather than a fresh infrastructure buildout and take its homegrown telecom technology stack to overseas markets.

The strategy marks the next phase for the company after building a network that carries more than 60% of the country's wireless data traffic, as it seeks to expand revenue without replicating the capital-intensive investments that underpinned its domestic expansion.

Speaking at Jio Platforms' IPO press conference on Thursday, Managing Director Akash Ambani said the company was targeting a commercial rollout of 6G in the early 2030s. With the technology still in the pre-standardisation phase and standards expected by 2029, Jio is preparing for the transition by developing a software-led approach that could limit the need for substantial fresh capital expenditure.

"6G is on our horizon. What this really means is that we will do 6G as a software upgrade rather than a new infrastructure build out," he said. The approach would allow Jio to build on its existing network assets, although the extent of infrastructure investment required will depend on the final technology standards and deployment requirements.

The immediate priority, however, is to extract greater value from the network it has already built. Jio's 5G network is currently operating at about a third of its potential capacity, giving it room to accommodate more users and data consumption before requiring a comparable expansion in capacity.

Sebi plans overhaul of listing rules

FE BUREAU
Mumbai, October 15

THE SECURITIES AND Exchange Board of India (Sebi) is planning a comprehensive overhaul of its Listing Obligations and Disclosure Requirements (LODR) regulations to simplify compliance, enhance transparency and strengthen investor protection, Chairman Tuhin Kanta Pandey said on Thursday.

Speaking at the Financial Express Modern BFSI Summit here, Pandey said the regulator is also considering third-party monitoring of funds raised through initial public offerings (IPOs) to ensure that companies use the proceeds for the purposes specified in their offer documents. "As a first step, we have proposed stronger monitoring of issue proceeds with greater transparency and accountability. Further proposals will follow, focusing on ease of doing business and simplified compliance without compromising investor protection," he said.

Addressing concerns over muted listing gains in some recent IPOs and the risks faced by retail investors, Pandey said Sebi had strengthened disclosure norms.

Paper on hospital billing soon: Seth

FE BUREAU
Mumbai, October 15

THE INSURANCE REGULATORY and Development Authority of India (Irdai) plans to issue a fresh consultation paper to address healthcare billing practices and improve health insurance claims settlement, Chairman Ajay Seth said on Thursday.

"On the claims side, we need to understand treatment costs, utilisation, fraud and provider practices. We aim to come out with another consultation paper on that," Seth said.

Seth identified five areas requiring attention: insurance economics, product suitability, claims and health insurance, reinsurance and market conduct, and digital public infrastructure.

He flagged gaps in health insurance products for middle-income households, despite their ability to afford premiums. "Even for a family earning ₹50,000 a month or ₹1 lakh a month, there are no suitable products. For ₹2 lakh and above, there are enough products in the market," he said, noting that healthcare needs vary across income segments.

Seth acknowledged the progress made by the Confederation of Indian Industry (CII) and urged insurers and healthcare providers to work together to address healthcare costs and claims-related issues.

He said health insurance complaints offered valuable insights into market conduct and product performance.

IRCTC TIES UP WITH QCI FOR FOOD SAFETY, HYGIENE AUDIT

STATE-RUN IRCTC has tied up with the Quality Council of India (QCI) to roll out independent food safety audits across its catering units on trains and at railway stations. The audit reports will be submitted within 24 hours, allowing IRCTC to quickly identify problems and take action against vendors who fail to meet food safety standards. Under the agreement signed on Thursday, QCI will deploy certified professionals to conduct surprise inspections on a quarterly and half-yearly basis to check compliance with FSSAI regulations and international food safety standards. Inspectors will use a mobile app to record findings through geo-tagging, timestamps and photographs. The audits will cover food storage, pest control, staff medical fitness and hygiene practices.

TRADE DEFICIT AT $30.2 BILLION

Exports jump 23% in Sept; FY27 tally may top $550 bn

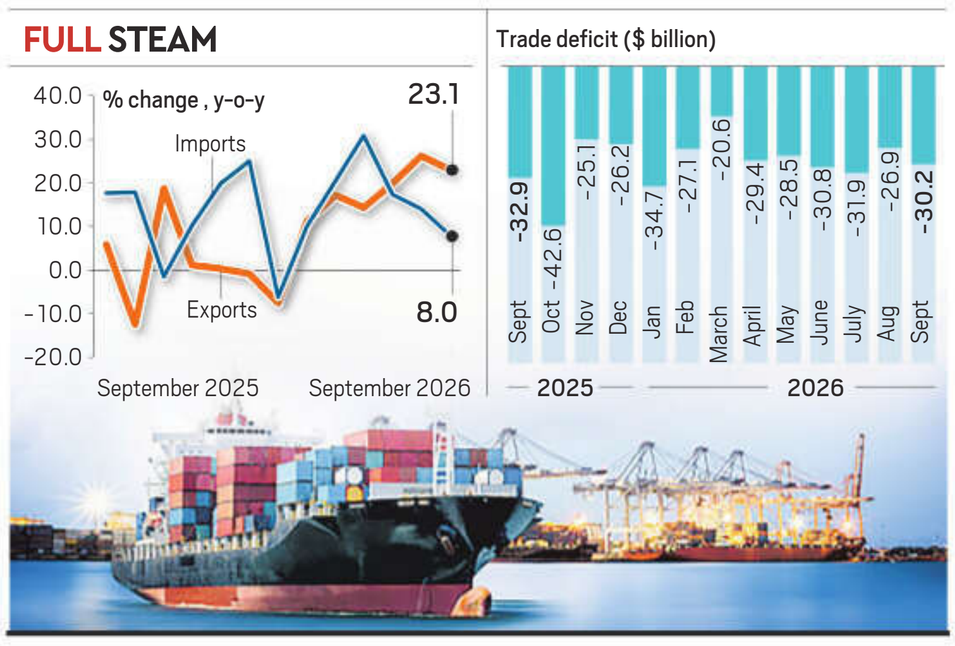

- Engineering goods, electronics and petro products main drivers

MUKESH JAGOTA
New Delhi, October 15

INDIA'S MERCHANDISE EXPORTS surged 23% year-on-year to $44.4 billion in September, led by brisk shipments of engineering goods, electronics and petroleum products, raising hopes that annual goods shipments could exceed $550 billion despite global trade uncertainties.

With double-digit growth for every month since April, goods exports in the first half of the current financial year rose 18.5% to $259.9 billion. Commerce Secretary Rajesh Agrawal said the high export growth would possibly be maintained in the second half of the year.

The government is targeting total exports of goods and services of $1 trillion in FY27, against $863.11 billion in FY26. Exports of goods and services during April-September stood at $476.20 billion.

Despite crude oil prices rising around 68% year-on-year in September, merchandise import growth was contained at 8% to $74.6 billion, as gold and silver imports contracted sharply. The merchandise trade deficit for September stood at $30.2 billion.

Engineering goods, accounting for about 28% of merchandise exports in September, grew 21% year-on-year to $12.2 billion. Electronics exports jumped 70.4% to $5.3 billion, while petroleum product shipments rose 31.9% to $6.2 billion.

"This high double-digit growth shows that the country's engineering sector can withstand external shocks," said Pankaj Chadha, chairman of the Engineering Export Promotion Council. Geopolitical tensions and trade-route disruptions remain risks, but new trade agreements could open up additional markets, he added.

Other major export performers included gems and jewellery, up 18.9% to $3.4 billion; chemicals, up 24.2% to $2.9 billion; and pharmaceuticals, which grew 4.6% to $2.7 billion.

Direct tax mop-up rises 13%, STT surges 52%

- Collections reach 50% of FY27 target

SHUBHAM RANA
New Delhi, October 15

THE GOVERNMENT HAS met 50% of its direct tax collection target for the current financial year, with corporate tax and securities transactions tax leading the growth.

Data released by the Central Board of Direct Taxes (CBDT) on Thursday showed that direct tax collections after refunds rose 13.2% year-on-year to ₹13.38 lakh crore as of October 14.

Total direct tax collections so far this year account for 49.6% of the government's budgeted direct tax collections target of ₹26.97 lakh crore for 2026-27 (April-March). The pace of collections till now is also higher than the 11.4% growth in gross revenues projected in the Budget for FY27.

The government has collected ₹46,840 crore in STT till October 14, up 51.6% from the same period a year ago. In the Budget, the government had projected STT collections to rise 15.8% year-on-year to ₹73,700 crore.

Collections remained strong even as refunds saw a 24% jump from a year ago. The government collected ₹16.03 lakh crore in direct taxes before refunds till October 14, up 14.9% year-on-year.

"The latest direct tax numbers reflect healthy tax buoyancy, with broad-based growth across key revenue streams. Equally significant is the sharp increase in refunds, particularly for non-corporate taxpayers, which reflects the administration's focus on faster processing of taxpayer claims," said Richa Sawhney, partner-tax, Grant Thornton Bharat.

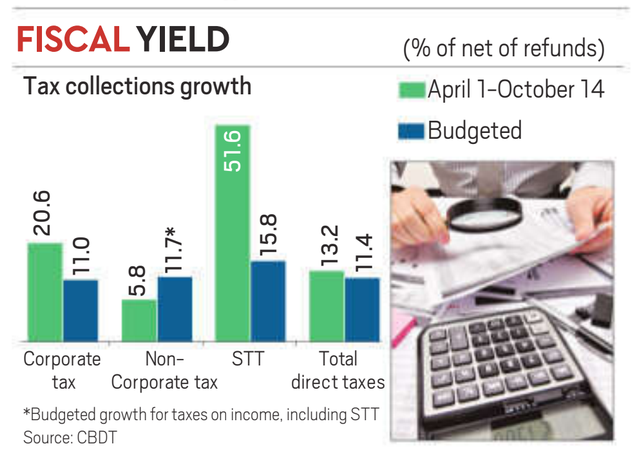

Corporate tax collections after refunds rose 20.6% year-on-year to ₹5.99 lakh crore during the reporting period. The government has achieved 49% of the Budget target for corporate tax collections of ₹12.31 lakh crore for FY27.

"Globally, personal income tax has outpaced corporate tax growth. In India, corporate tax collections continue to grow at a faster rate, which shows the underlying resilience of the Indian economy and the ability to do better with the easing of global economic shocks," said Aravind Srivatsan, senior partner and India tax leader, Nangia Global.

Non-corporate tax (NCT) collections remained slow. NCT after refunds rose 5.8% on year to ₹6.92 lakh crore. NCT includes taxes paid by individuals, Hindu Undivided Families, firms, local authorities, and artificial juridical persons.

Notably, NCT before refunds were up 11.5% at ₹8.03 lakh crore, with refunds jumping 67% as of October 14. High refunds in NCT could be "indicative of excess tax withholding or advance tax for certain taxpayers," said Jayesh Sanghvi, tax partner at EY India.

"The 51.6% increase in STT collections points to continued activity in equity and derivatives markets despite global pressures. This growth has also been partly supported by the increase in STT rates on equity derivatives effective April 2026," Sanghvi said.

Essar expands CBM footprint with 5 blocks

FE BUREAU
New Delhi, October 15

ESSAR OIL & GAS said it has secured five coal bed methane (CBM) blocks across West Bengal, Madhya Pradesh and Telangana, adding around 1,281 square kilometres to its exploration acreage as it seeks to expand domestic natural gas production.

The blocks, awarded under the government's Special CBM Bid Rounds 2025 and 2026, have an estimated 6.6 trillion cubic feet (TCF) of gas-in-place resources. Contracts for the blocks were signed on October 15 in the presence of Petroleum Minister Hardeep Singh Puri.

The expansion comes as the government steps up efforts to raise domestic hydrocarbon output.

Clarity on tariffs must for trade deal with US: Commerce secy

FE BUREAU
New Delhi, October 15

INDIA IS AWAITING clarity on the US tariff framework, including proposed 100% tariffs on countries buying Russian oil and the outcome of the Section 301 investigation into excess manufacturing capacity, before operationalising the first tranche of the bilateral trade deal, Commerce Secretary Rajesh Agrawal said on Thursday.

Negotiations are progressing in the right direction and the two sides are in a "very good zone", with a view to signing the agreement as early as possible, he said.

"India will look at more tariff stability and trade stability as a part of the deal," Agrawal said, responding to a question on whether the Russia-related sanctions issue would be covered by the agreement.

India backs US-led excess capacity initiative

India has backed a US-led G20 initiative to address structural excess manufacturing capacity, arguing that non-market policies concentrating production in particular geographies distort trade and competition. The position comes even as Indian industries, including solar modules, steel and petrochemicals, face scrutiny under the US investigation.

"This is a G20 priority issue from the US," Agrawal said, adding that India had also consistently opposed excess capacity driven by non-market forces.

Terms for Mexico deal ready for signing

Separately, the Terms of Reference (ToR) for expanding the India-Mexico Preferential Trade Agreement have been finalised and are awaiting internal approvals.

The two sides hope to sign them by the end of October, Agrawal said, adding that the negotiations would focus on goods trade.

Goyal: Legal drafting for India-US pact in progress

Commerce and Industry Minister Piyush Goyal on Thursday said the first phase of the India-US trade pact has been finalised and is undergoing legal drafting.

He expressed the hope that the legal drafting too would be finalised soon and operationalised once India secures a competitive advantage over its peer countries.

"US bilateral trade agreement's first tranche has been finalised and it is going through final contours, the legal drafting, and we hope to be able to finalise that soon and operationalise that once we get the comparable advantage or competitive advantage over our peer countries," Goyal said here at the SRCC Centenary Conclave.

The minister added that his comments on the US-India pact "are consistent and exactly what I've said yesterday and what I said a week ago and what I said three months ago. So nothing new in that".

BoP surplus at $45 bn in Aug on FCNR inflows

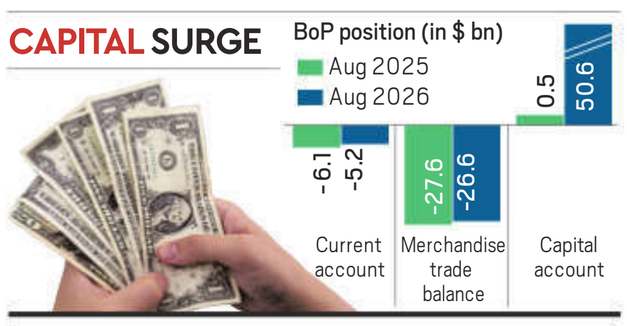

- CAD at $5.2 bn on larger services trade surplus

SHUBHAM RANA
New Delhi, October 15

INDIA'S BALANCE OF Payments (BoP) surplus jumped to $45.4 billion in August mainly due to large inflows under the Reserve Bank of India's (RBI) Foreign Currency Non-Resident Bank (FCNRB) scheme, data released by the central bank on Thursday showed.

In contrast, the year-ago month saw a depletion of $5.6 billion from the reserves on a BoP basis. The BoP was in a surplus of $20.8 billion in July.

With NRI deposits surging in July and August, the BoP surplus rose to $58 billion in the first five months of FY27 compared to a deficit of $0.8 billion in the corresponding period a year ago.

The FCNR window, which closed on August 31, brought in around $133 billion worth of deposits into India. This is expected to support the BoP in FY27 while the current account is seen widening on higher energy prices and imports.

Net NRI deposits jumped to $83 billion in August from $1 billion a year ago. This led to a rise in net banking capital to $64.7 billion in August and the capital account surplus to $50.6 billion during the month and $76.3 billion in April-August. In August 2025, the capital account surplus was just $0.5 billion.

Net foreign direct investment (FDI) and foreign portfolio inflows turned positive in August, supporting the capital account surplus.

Net FDI inflows rose to $3.3 billion in August compared to outflows of $0.1 billion a year ago. In April-August, net FDI inflows increased to $13.8 billion from $9.6 billion in the corresponding period a year ago.

Net foreign portfolio investment (FPI) inflows rose to $1.7 billion in August, against net outflows of $2.6 billion a year ago.

RBI dollar window may shift $11-12 bn monthly OMC demand off spot mkt

SAURAV ANAND
New Delhi, October 15

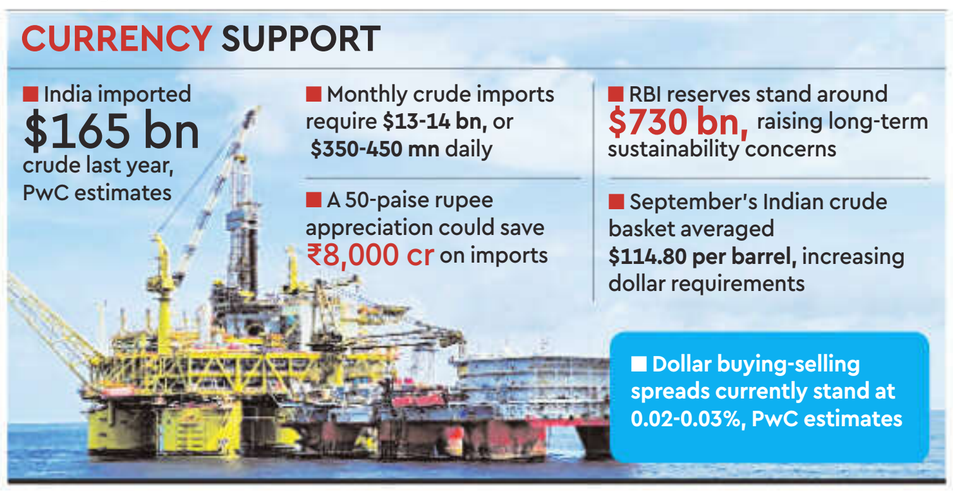

THE RESERVE BANK of India's special dollar window for state-run oil marketing companies could shift around $11-12 billion in monthly dollar demand away from the spot foreign-exchange market, easing pressure on the rupee and lowering treasury and hedging costs for Indian Oil, BPCL and HPCL, according to industry experts.

The RBI opened the special window on October 12 to meet the entire daily dollar requirement of IOC, BPCL and HPCL, allowing the companies to buy dollars through designated banks rather than compete for them in the spot market.

The move assumes significance as elevated crude prices are increasing refiners' recurring dollar requirements. India imported around $165 billion worth of crude last year, equivalent to roughly $13-14 billion a month and $350-450 million a day, according to Manas Majumdar, partner and leader, oil & gas, fuels & resources, PwC India.

"For refiners, the key benefit is certainty in accessing dollars without having to chase the currency in the spot market during volatile periods. It will ease treasury management and reduce hedging and transaction costs, although it does not change the underlying price of crude or remove exchange-rate risk," a senior refining industry official said on condition of anonymity.

Prashant Vasisht, senior vice president and co-group head, corporate ratings, Icra, said: "Monthly about $11-12 billion dollars forex demand of OMCs is expected to shift away from the forex market, which would reduce pressure on the rupee."

A stronger rupee can also lower the rupee cost of crude imports. "Two benefits — there would be a more finely negotiated exchange rate and a stronger rupee leading to a lower import bill (in rupee terms)," Vasisht said.

At a crude price of $85 a barrel, a 50-paise appreciation in the rupee could lower the overall crude import bill by about ₹8,000 crore, he added.

Majumdar said routing oil companies' large and recurring foreign-exchange requirements through the central bank offers scale advantages over each OMC sourcing dollars separately from the spot market.

"This oil dollar demand is only going up as crude prices inch up and this lumpy and recurring demand for dollars is better managed through RBI — volume consolidation and scale benefits — than an individual OMC could do in spot market," Majumdar said.

He said OMCs would also benefit from easier treasury management, reduced volatility and lower hedging costs. The spread between buying and selling rates is around 0.02-0.03%, he said.

The benefit becomes more significant when crude prices rise. The Indian crude basket had averaged $114.80 a barrel so far in September, increasing the amount of dollars required to pay for imports.

Vivek Iyer, partner and financial services risk advisory leader, Grant Thornton Bharat, however, said the window shifts dollar demand away from the market rather than eliminating it.

"It would be useful to first understand that the window moves almost all PSU oil-company dollar demand off the spot market, which is significant, but it relocates the pressure rather than removing it. The direct benefit to the OMCs comes mainly from a steadier rupee, not from cheaper dollars," Iyer said.

Unlike the 2013 arrangement, which involved swaps, the current mechanism involves outright dollar sales by the RBI.

"Because these are outright sales, every dollar comes straight out of reserves, so the window works as a bridge, not a lasting fix," Iyer said.

He added that the mechanism does not change the current account deficit, since the same dollars ultimately leave the country to pay for crude imports. Other sources of demand — including those from private refiners, gold, defence and portfolio outflows — also remain in the spot market.

Majumdar similarly flagged the sustainability issue. "So for short-term this is good but would not be maintained in long-run," he said, noting that the RBI's forex reserves are around $730 billion.

'EXCHANGE RATE NOT A BAROMETER OF ECONOMY'

India's GDP revision welcome, consistent with advice: IMF

SHUBHAM RANA
New Delhi, October 15

THE BASE REVISION of India's gross domestic product (GDP) series earlier this year is a 'welcome development', with the changes in methodology in line with the advice of the International Monetary Fund (IMF), Krishna Srinivasan, director of the fund's Asia and Pacific Department, said on Thursday.

"On the issue of GDP revision, they have revised the base and the use of PPI (Producer Price Index) and IIP (Index of Industrial Production) to revise the production side of GDP. These are welcome developments and these revisions to the methodology are entirely consistent with the advice we've been giving them," Srinivasan said.

In its 2025 annual review, the IMF had given India's national accounts statistics, which include GDP and gross value added (GVA), a 'C' grade, pointing to methodological and coverage-related shortcomings.

The 'C' grade was assigned to the old GDP series, which had FY12 as the base year. In February, the Ministry of Statistics and Programme Implementation (MoSPI) introduced a new GDP series with FY23 as the base year. The revised series incorporates new data sources, double deflation and the new output PPI.

"What they have done is consistent with good practices and is there room for improvement? Yes, there is always room for improvement but let's recognise the good work done by MoSPI in improving the statistics," Srinivasan said.

According to the new GDP series, India's economy grew 7.8% in FY26 as well as in the April-June quarter. The IMF earlier this week raised its forecast for India's GDP growth in FY27 by 60 basis points to 7%.

"Q1FY27 growth came in much stronger than we had anticipated so we have revised our growth projection for this year and next year to 7% and medium-term growth to 6.9%," Srinivasan said.

Srinivasan said India entered the energy shock period with strong fundamentals, which helped the country respond to elevated energy prices. "Growth was strong, fiscal prudence was enshrined and they had lots of reserves. In that context, they have responded well to the shock," he said.

While economic growth has remained robust, the rupee has depreciated sharply this year. Asked about the apparent disconnect between growth and the currency, Srinivasan said there was no such dichotomy.

"The exchange rate should not be viewed as a barometer of economic success or failure given the multiplicity of shocks we have seen. Allowing the exchange rate to act as a buffer for shocks is very important," Srinivasan said.

"What happens to the exchange rate is a function of global interest rates, investor risk appetite, and oil prices. And India being an oil importer has been affected by the oil shock," Srinivasan said.

CHANGES IN METHODOLOGY

- IMF says GDP methodology changes align with the fund's advice
- FY23 adopted as new GDP base year
- New series incorporates additional data sources
- Double deflation introduced in GDP calculations
- New output PPI used for production-side estimates

- Old GDP series received 'C' grade from IMF
- India's GDP grew 7.8% in FY2
- Q1FY27 growth also stood at 7.8%
- IMF raises FY27 growth forecast to 7%
- Medium-term growth projection at 6.9%

Joblessness among youth, women sees marginal rise in September

SHUBHAM RANA
New Delhi, October 15

INDIA'S UNEMPLOYMENT RATE for people aged 15 years and above remained unchanged at 5% in September, even as joblessness among youth and women increased from the previous month, according to the latest Periodic Labour Force Survey (PLFS) released by the National Statistics Office (NSO) on Thursday.

The unemployment rate stood at 5% in August and 5.2% in September 2025.

While unemployment among men remained unchanged at 4.9% for the second consecutive month in September, the rate for women rose to 5.2% from 5.1% in August.

In rural areas, the unemployment rate increased to 4.2% in September from an eight-month low of 4.1% in August. In urban areas, it rose to an eight-month high of 6.9% from 6.8% in August. In September 2025, unemployment in urban and rural areas stood at 6.8% and 4.6%, respectively. Rural male unemployment increased to 4.4% in September from 4.3% in August, while urban male unemployment eased to 6% from 6.1%.

Urban female unemployment rose to 9.2% in September from 8.9% a month earlier, while the rate in rural areas remained unchanged at 3.9%.

Youth unemployment -- those aged 15-29 years -- increased to 15.2% in September from 15.1% in August.

The rate was higher among young women at 18.5%, compared with 14% for young men.

Youth unemployment remained significantly higher in urban areas than in rural areas. The urban youth unemployment rate rose to 19% in September from 18.7% in August, while the rural rate declined marginally to 13.2% from 13.3%.

Notably, unemployment among young urban women stood at 26.6%, significantly higher than the 16.4% recorded for their male counterparts.

The September PLFS data also showed a marginal moderation in labour force participation. The labour force participation rate (LFPR) — the proportion of the population that is working or seeking or available for work — for those aged 15 years and above eased to 55.5% in September from a six-month high of 55.6% in August.

The worker population ratio (WPR) — the proportion of employed persons in the population — for those aged 15 years and above declined marginally to 52.7% in September from 52.8% in August.

The monthly estimates are based on responses from 370,513 people surveyed.

EMPLOYMENT UPDATE

NTPC, Africa50 tie up for project

SAURAV ANAND
New Delhi, October 15

STATE-RUN NTPC has partnered with infrastructure investment platform Africa50 to identify, assess, and develop commercially viable power projects across Africa, as India's largest power utility looks to expand its international footprint and tap opportunities in generation and cross-border electricity trade.

Under the pact, NTPC will assess project feasibility and develop technical solutions, while Africa50 will identify priority projects, structure them for investment and support their development. The partnership will also explore opportunities for cross-border electricity trade between African countries.

The agreement brings together NTPC's engineering, project development, construction, and operations capabilities with Africa50's project-financing expertise and relationships with governments across the continent. The companies, however, have not specified the countries where projects will be developed, the investment envisaged.

NHAI mandates audits on highways

AMID RECURRING CONCERNS over highway safety, structural failures and deficiencies in road engineering, the National Highways Authority of India (NHAI) will introduce mandatory independent checks of designs for major bridges and other critical structures from December 1, 2026.

The move aims to strengthen quality assurance and prevent structural deficiencies that can lead to safety risks, costly repairs and delays. Independent verification will provide an additional layer of scrutiny of engineering plans, drainage arrangements and compliance with technical standards before construction proceeds.

Under the new policy, designs will be examined by empanelled Indian Institutes of Technology (IITs), reputed government technical institutions and experienced technical firms specialising in bridge engineering.

The policy will cover all new Engineering, Procurement and Construction (EPC), Hybrid Annuity Model (HAM) and Build-Operate-Transfer (BOT) projects.

Rice exports hit by West Asia crisis, grow just 2.5% in H1

SANDIP DAS
New Delhi, October 15

RICE EXPORTS, INDIA'S largest agri-product shipments, rose just 2.5% to $5.77 billion during April-September of FY27 year-on-year, as supply disruption and high freight due to the West Asia conflict continue to impact shipments.

In September, 2026, the world's biggest rice exporter, shipped grain valued at $0.96 billion, an increase of 4.2% compared to the same month last year, as importing countries in the Middle East continue to adopt a cautious approach in building stock.

Exporters said that ports across Iraq, Kuwait, Bahrain, Qatar, Dammam, and Jebel Ali remain heavily disrupted, forcing shipments to take longer and more expensive alternative routes. Even Jeddah, a key Red Sea gateway, in Saudi Arabia has faced Houthi attacks, while growing tensions raise serious concerns over the Bab el-Mandeb route.

"At present, the combination of higher domestic paddy prices, uncertain international demand, elevated logistics costs, and geopolitical disruptions is creating pressure on rice exports," Ranjit Singh Jossan, vice president of the All India Rice Exporters Association, told *FE*. The value of rice exports, including Basmati and non-Basmati varieties, fell by 7.5% year-on-year to $ 11.53 billion in FY26. India has been the world's biggest rice exporter (Basmati and non-Basmati) in the last decade.

The United States Department of Agriculture (USDA) said India's rice exports next year are projected to decline by 4% to 24 million tonne (MT) in 2027.

Southwest monsoon exits

SANDIP DAS
New Delhi, October 15

THE SOUTHWEST MONSOON withdrew from the country on Thursday, while simultaneously, northeast monsoon (October-December) rains have commenced over the southern peninsula, according to the India Meteorological Department (IMD).

"With the onset of the northeast monsoon, a wet spell with isolated heavy rainfall is likely over Tamil Nadu, Puducherry, Andhra Pradesh, Kerala and Karnataka till October 21, 2026," IMD stated.

North-eastern monsoon also referred to as the winter monsoon accounts for around 10%-11% of country's annual rainfall and affects regions such as Tamil Nadu, Puducherry, Karaikal, Yanam, Rayalaseema, coastal Andhra Pradesh, Kerala, and south interior Karnataka. Tamil Nadu receives nearly half of its annual rainfall during the monsoon season.

North-eastern monsoon impacts the growth of rabi or winter crops. IMD forecasts the northeast monsoon (October-December) to be 'normal' in the range of 88-112% of the benchmark.

Flipkart Group FY26 revenue increases 18%, losses narrow

FLIPKART GROUP'S REVENUE from operations rose 18% to ₹1.46 lakh crore in FY26, and adjusted operating losses narrowed by about ₹1,600 crore, reflecting improved margins and lower overheads, according to consolidated financial statements filed with the registrar of companies. The group's consolidated net loss declined to ₹8,468 crore in FY26 from a restated ₹8,646 crore a year earlier, an improvement of about ₹178 crore.

The results mark the first time since the group's redomiciliation to India that its consolidated financial performance has been reported under Flipkart Internet, the company said. The consolidated numbers cover Flipkart, fashion retailer Myntra, travel platform Cleartrip, as well as platform services, logistics and other specialised businesses. Adjusted Ebitda improved by about ₹1,500 crore during FY26.

Myntra advertising income rises 35%

Myntra Designs reported revenue from operations of ₹5,242.5 crore in FY26. Excluding logistics and shipping services, revenue from operations rose 12% year-on-year to ₹4,123.3 crore, driven by higher advertising and marketplace revenue. Revenue from advertisement services rose 35.2% to ₹1,236.4 crore. —PTI

Mehli has no locus standi to file objections: Tata Trusts

Mistry seeks Noel affidavit on eligibility as Bai Hirabai reporting trustee; SRTT cites meeting ban by charity commissioner to seek adjournment

URVI MALVANIA
Mumbai, October 15

LEGAL TANGLE

- SDTT says Mistry's application seeking an inquiry into SDTT, SRTT and Bai Hirabai trust is not maintainable as a single proceeding
- Bai Hirabai trust has disputed Mistry's interpretation of Trust Deed clauses on eligibility for trusteeship based on religion and residence

SIR DORABJI TATA Trust (SDTT) and Bai Hirabai Jamsetji Tata Navsari Charitable Institution have questioned Mehli Mistry's locus standi to object to change reports concerning the cessation of his trusteeship, arguing that he no longer has a legal interest in either trust.

In replies filed with the Maharashtra charity commissioner's office, the two trusts said Mistry's three-year tenure ended on October 28, 2025, and his proposed reappointment was not approved. They also cited his November 4, 2025, letter disclaiming interest in reinstatement, arguing that he could not use his former trusteeship to challenge their administration and governance.

The trusts have urged the authority to decide preliminary objections on maintainability and jurisdiction before examining the merits of Mistry's objections or ordering any inquiry.

SDTT has argued that Mistry's application seeking an inquiry into SDTT, Sir Ratan Tata Trust (SRTT) and Bai Hirabai is not maintainable as a single proceeding because the three are separate public charitable trusts with distinct governing instruments, boards, properties and accounts. It has also contended that the application does not specify the statutory provisions under which action is sought against it and duplicates objections already pending before the charity commissioner.

Bai Hirabai, meanwhile, has disputed Mistry's interpretation of Clauses 6 and 18 of its Trust Deed, which concern eligibility for trusteeship based on religion and residence. It has argued that these restrictions conflict with the original Will and Codicil governing the trust and should not be given effect.

Both trusts have denied the allegations and sought rejection of Mistry's objections, while requesting that no orders be passed without giving them an opportunity to be heard.

People close to Mistry said that he is of the opinion that it is his duty to flag the issues he has raised since charitable trust trustees have unlimited personal liability, and not raising them could have an impact on him. Mistry did not respond to requests for comment. Mistry has till November 5 to file his rejoinder to the trusts' response.

Meanwhile, Mistry, through his representative, filed a submission seeking an affidavit from Tata Trusts Chairman Noel Tata, who has been proposed as a substitute trustee in proceedings related to the Mistry's complaint against Bai Hirabai Jamestji Tata Navsari Charitable Institution, declaring that he meets the eligibility criteria prescribed under the trust deed.

It is submitted that the deputy charity commissioner "shall ensure that the reporting trustee proposed to be substituted by way of the present application shall be a qualified trustee as contemplated in Clauses 6 and 18 of the Trust Deed dated 07.12.1923, which inter alia states that trustee shall be a Parsi professing Zoroastrian religion," Mistry said in the submission dated October 15.

The submission came in response to Bai Hirabai Trust filing a substitution application to name Noel Tata the reporting trustee since the earlier reporting trustee — Vijay Singh — has since retired from his post.

In his objection, Mistry had claimed that the Bai Hirabai board has trustees who are ineligible for appointment since they do not fulfil the criteria set forth in the trust deed — permanent residency in Mumbai or Navsari and being of Zoroastrian Parsi faith, a point that the trust has objected to in its response.

In a separate hearing for SRTT in front of the assistant charity commissioner, the trust said that it is unable to respond to Mistry's objections due to the charity commissioner's order dated May 15 barring it from conducting meetings. Trust lawyers said that the directions followed complaints concerning the composition of SRTT's board, including alleged non-compliance with statutory limits on perpetual trustees. SRTT requested that the hearing be adjourned until the complaints are finally disposed of, along with any other relief the authority considers appropriate.

Mistry's lawyer objected to the trust's failure to file a reply to his complaint despite multiple hearings. Mistry's lawyer contended that the delay in filing a reply should not be linked to decisions concerning the trust's administration, management or composition.

Wipro's weak deal wins cloud growth outlook

- Profit down 4.5%, revenue rises 1.1%

POULOMI CHATTERJEE
Bengaluru, October 15

A SHARP DECLINE in Wipro's deal bookings and an unchanged revenue outlook for the December quarter point to a prolonged slowdown in demand, despite improving operating margins and emerging opportunities in artificial intelligence (AI).

The country's fourth-largest IT services firm reported a largely in-line performance for the July-September quarter on Thursday, but its total bookings fell to their lowest level in almost four years, raising concerns over the visibility of future growth.

The company has retained its revenue guidance for the IT services business at (-)1.5% to 0.5% in constant currency terms for the December quarter, the same range as in the September quarter. Consolidated net profit declined 4.5% sequentially to ₹3,200 crore, marginally below the Bloomberg estimate of ₹3,311 crore, while revenue from operations rose 1.1% to ₹24,752 crore, broadly in line with expectations. Operating margins improved 50 basis points sequentially to 16.5%, supported by operational improvements, although continuing investments in the business remained a drag. IT services revenue, however, declined 0.1% sequentially in dollar terms to $2.61 billion.

Staff strength falls by 6,716

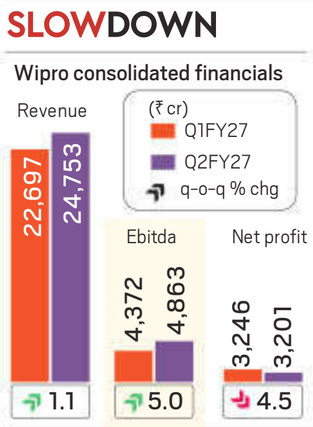

WIPRO'S WORKFORCE CONTRACTED by 6,716 employees during the September quarter to 236,328, the steepest decline among its peers. Chief Human Resources Officer Saurabh Govil described the exits as voluntary and said fresher hiring would gather pace in the second half of FY27 as work volumes increased.

The more worrying signal came from deal bookings, which fell 22.9% sequentially to $2.6 billion. Large deal bookings dropped 58.6% to $700 million, indicating that fresh deal wins may not provide a strong enough cushion for growth in the coming quarters. Chief Executive and Managing Director Srini Pallia said the demand environment had remained materially unchanged, with clients continuing to focus on efficiency and productivity while accelerating AI adoption.

The company expects seasonal factors to weigh on the December-quarter performance as well. While management expressed optimism about deal momentum in the coming quarter, the sharp fall in bookings leaves the pace of recovery uncertain. Wipro is banking on AI-led services and expansion into the mid-market segment to create new growth avenues. Pallia said the company was seeing opportunities for higher-value transformation work and growing traction across its AI offerings.

Oral anti-obesity drug likely by mid-2027: Novo Nordisk

MANU KAUSHIK
New Delhi, October 15

DANISH DRUGMAKER NOVO Nordisk expects the market for GLP-1 drugs, used to treat diabetes and obesity, to grow 15-20% annually in India over the coming years despite rising competition from cheaper generics. It is also preparing to launch higher-dose semaglutide and an oral obesity treatment, with the pills' potential introduction around mid-2027, subject to regulatory approval.

Vikrant Shrotriya, managing director of Novo Nordisk India, told *FE* that the market has considerable room for expansion, even as recent sales trends suggest some moderation in growth. "You will not get a hockey stick, but you can still get one of the most fantastic growths in Indian pharma industry," he said. He expects the segment to grow faster than the broader pharma market, potentially by 50% or more.

The outlook comes amid intensifying competition following the expiry of semaglutide's patent in March, which allowed domestic drugmakers to introduce cheaper versions. Companies including Sun Pharma and Dr Reddy's Labs are expanding their presence in the segment. Despite growing competition from cheaper generics, the drugmaker is betting on long-term demand rather than engaging in a price war. Shrotriya said it was focused on building doctors' trust and sustaining its commitment to obesity treatment over many years. Drawing a parallel with insulin, he said the adoption of medicines takes time to expand, even as prices fall and new competitors enter the market.

VIKRANT SHROTRIYA, MD, NOVO NORDISK INDIA

"The market for GLP-1 drugs is expected to grow 15-20% annually in India in the coming years"

The company has submitted applications for higher-dose semaglutide formulations, including 2 mg for diabetes and 7.2 mg for obesity, which are under regulatory evaluation. It has also filed an application for oral semaglutide specifically for obesity, which Shrotriya said has demonstrated average weight loss of 16.6% over 64 weeks in clinical trials. Beyond weight loss, he said, studies have shown benefits in reducing cardiovascular and kidney risks, as well as improving liver disease associated with excess fat.

Canadian firm VZFOX set for India foray

SAURAV ANAND
New Delhi, October 15

CANADA-BASED SUBSURFACE ENGINEERING firm VZFOX announced that it is set to enter the Indian market, as the country looks to strengthen domestic energy production and reduce its high dependence on imported crude. The firm plans to focus on mature-field revitalisation, reservoir optimisation, enhanced and improved oil recovery, injection strategies and field redevelopment. It will also support emerging CO2 storage and carbon capture, utilisation and storage projects.

VZFOX plans to establish an office in Bengaluru with a five-member team by the end of 2026 and expand organically as business grows. The entry comes at a time when India's crude oil import dependence has risen to 88.7% in FY26 from 85.5% in FY22, while domestic crude production has declined to 28 million tonne from 29.7 million tonne over the same period.

TechM profit rises 8.3% to ₹1,586 cr, revenue up 3%

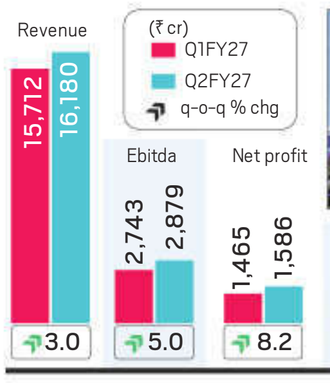

OJASVI GUPTA
New Delhi, October 15

TECH MAHINDRA REPORTED an 8.3% sequential increase in net profit to ₹1,586 crore in the July-September quarter, supported by revenue growth and continued margin expansion, although the figure fell short of Bloomberg's estimate of ₹1,643 crore. Revenue rose 3% quarter-on-quarter to ₹16,180 crore, beating the estimate of ₹16,028 crore, as the IT services major sustained its growth momentum. Earnings before interest, tax, depreciation and amortisation (Ebitda) increased 5% sequentially to ₹2,879 crore, also ahead of estimates.

The company said its margins had expanded for the 12th consecutive quarter, reflecting disciplined execution and operating improvements. New deal wins, measured by total contract value (TCV), stood at $1.02 billion in Q2FY27, compared with $1.07 billion in the preceding quarter. The company has secured deals worth more than $1 billion in each of the last four quarters, indicating continued traction with customers. Revenue grew 7.2% year-on-year in constant currency terms, CEO Mohit Joshi said, adding that the company remained focused on innovation and long-term value creation. TechM's workforce increased to 152,206 at the end of September from 146,760 in June, a sequential rise of 3.7%. Utilisation improved to 88.9% from 87% a quarter ago.

CII flags $36-bn gap in media ambition

VIVEAT SUSAN PINTO
Mumbai, October 15

INDIA'S MEDIA AND entertainment industry must accelerate annual growth from 9% to 15.3% to achieve its $100-billion ambition by 2035, as it faces a potential $36-billion shortfall at current growth rates, according to a report by the Confederation of Indian Industry (CII) released on Thursday.

The industry, valued at $32 billion in 2025, is projected to reach around $64 billion by 2033 if its growth trajectory remains unchanged, according to the report, 'The New Economics of Media & Entertainment. Released at CII's Big Picture Summit 2026, it calls for policy reforms, stronger revenue models, increased investment and greater ownership of intellectual property (IP) to unlock growth. Digital media is expected to be a major driver, with internet advertising projected to reach $47 billion by 2033. Business-to-business media, live events and animation, visual effects, gaming, comics and extended reality services could contribute $16 billion, while over-the-top video is projected to reach $8.5 billion.

However, rising consumption alone may not translate into sustainable revenues, making monetisation and IP development critical to the industry's next phase. To improve industry economics, CII has proposed greater flexibility in television pricing, removal of carriage fees, restoration of audience ratings, common cross-screen measurement standards and a reduction in GST on subscriptions to 5%.

GAURAV BANERJEE, MD & CEO, SONY PICTURES NETWORKS INDIA

'Just making a good show or film no longer enough'

India's media and entertainment industry has an opportunity to build globally recognised creative businesses and intellectual property (IP) that travels across platforms and markets, says **Gaurav Banerjee**, *chairman, CII National Council on Media & Entertainment, and MD & CEO, Sony Pictures Networks India. In an interview with* **Viveat Susan Pinto**, *Banerjee discusses AI, the future of storytelling and television's growth potential. Excerpts:*

You have spoken about the need for credible evidence of returns on media investments. What would that entail?

My reference here is to the creative ecosystem. India has the ingredients to become one of the world's most important entertainment markets... Our opportunity is not simply to serve a large domestic audience but also to build businesses, franchises, and capabilities and talent in India that can create value around the world. This will require ambition, experimentation, financial discipline, and a willingness to rethink established business models. It is no longer enough to just make a good TV show or film. If we can combine India's creative diversity and scale with stronger IP, with smarter technology, and sustainable economics, we can build an industry that is not only much larger but also much more valuable.

AI is both an opportunity and a challenge... Where do you stand in this debate?

Thoughtful deployment of AI can democratise story development, research and discovery. These tools were earlier very restricted, but they can now become available to just about anybody. I have spent 27 years building television shows, and one restriction has often been the lack of depth in our writing rooms. AI can help us achieve greater depth in development and research and do it quickly. Previsualisation, which used to be expensive earlier, can become key for content development now, as costs come down. That is where the big opportunity lies. The challenge is when you start using all of this to replace creative talent and basically cut costs. That is worrying.

TV viewership continues to co-exist with the growth of OTT and connected TV in India. How can broadcasters capitalise on this trend?

It is heartening for our industry that both are growing... Do we have 100% television penetration in this country? No. There is enormous headroom for growth. We have more than 50 million free-to-air households. One of the important goals for broadcasters should be to give these homes the reason to switch to pay television as their purchasing power improves. How do you do it? With a great product and marketing. Regional content is part of that, of course, but the fundamentals are very simple: good storytelling and amazing content backed by strong marketing.

"OVER 50-MILLION FREE-TO-AIR HOUSEHOLDS IN INDIA REPRESENT AN ENORMOUS OPPORTUNITY FOR DISTRIBUTION FIRMS AND TELEVISION BROADCASTERS"

How can broadcasters and distributors work together to unlock growth?

Firstly, we are not living in disharmony. There is an amazing business logic for working together because of the opportunity that exists for all of us. The over 50-million free-to-air household base represents an enormous opportunity for distribution companies and television broadcasters. Our country's need for entertainment and the headroom for growth are enormous... There is no structural reason whatsoever for disharmony.

Jio Platforms looks beyond tariff hikes to drive growth

URVI MALVANIA
Mumbai, October 15

(From left) Kotak Mahindra Bank Founder & Non-Executive Director Uday Kotak; Jio Platforms Non-Executive Director Isha Ambani; Reliance Jio Infocomm Chairman and Reliance Retail Ventures Director Akash Ambani; and Jio Platforms CEO Pankaj Pawar during a press conference in Mumbai on Thursday

JIO PLATFORMS PLANS to drive revenue growth by getting customers to spend more on a wider range of services rather than relying primarily on tariff increases, as it looks to monetise its investments in telecom infrastructure. The company sees significant headroom to increase revenue from mobility, home broadband and enterprise services, while expanding into businesses beyond its licensed telecom operations to improve profitability.

"We always have the ability to take prices up, but what we want to do is to really deliver more services to our customers so that they're very happy, rather than just pricing per GB as a lever that we want to control," Managing Director Akash Ambani said at the company's IPO press conference on Thursday. "The headroom available is very large. We can keep creating more value, and there are multiple levers. Tariff is just one of the levers," he added.

The strategy points to a shift towards extracting greater value from each customer through additional services, rather than depending largely on periodic price increases to lift average revenue per user (Arpu).

The approach is underpinned by the scale of Jio Platforms' existing customer base and the scope for higher consumption. The company had 533.3 million customers at the end of June, including 284.9 million 5G users, while average monthly data consumption stood at 43.7 GB per customer in the first quarter of FY27.

Jio expects the telecom industry to add 340 million 4G and 5G subscribers between FY26 and FY31, providing an opportunity to expand its customer base and improve monetisation.

With its 5G network currently using about a third of its potential capacity, migrating more customers to the technology and encouraging greater use of digital services are expected to support growth.

Air India forms dedicated team in cost-cutting push

AKBAR MERCHANT
Mumbai, October 15

AIR INDIA HAS set up a dedicated, full-time team to identify cost-saving opportunities across its operations as the Tata Group-owned airline seeks to strengthen its financial position amid persistently high aviation turbine fuel (ATF) prices, airspace restrictions and geopolitical disruptions.

In an internal communication to employees, CEO and MD Tewolde Gebremariam said, "A newly formed multi-disciplinary, cross-functional cost savings team would systematically review expenditure across the organisation and identify opportunities to improve cost efficiencies."

The initiative is part of a broader push to embed cost consciousness across the airline, with employees also being encouraged to suggest measures to reduce spending, improve resource utilisation and generate additional revenue. "Cost savings cannot be driven by a single team or function alone; it requires the active participation and commitment of every employee," Gebremariam said. The airline has also launched PRABHAV, The Value Creator Award to invite employee suggestions on reducing costs through improved processes, contract renegotiations, efficient procurement, waste reduction and bringing outsourced activities in-house.

The measures come as Air India continues its transformation under the Tata Group, which took control in January 2022. Despite investments in fleet renewal, cabin upgrades and operations, sustained profitability remains a challenge amid high costs and intense competition. Air India has reported substantial losses in recent years while pursuing aircraft orders, refurbishment, technology upgrades and service improvements.

"Every rupee we save creates an opportunity to reinvest in areas that matter most," he said.

Tata Realty, Canadian fund eye ₹10,000 cr asset sale

RAGHAVENDRA KAMATH
Mumbai, October 15

A JOINT VENTURE between Tata Realty and Infrastructure (TRIL), part of Tata Sons, and Canadian investor Canada Pension Plan Investment Board (CPPIB) is looking to sell two commercial property assets in Chennai and Gurugram to raise around ₹10,000 crore, sources said.

The joint venture plans to monetise the 4.6-million-sq-ft Intellion Park in Chennai, formerly known as Ramanujan IT City, and the 1.8-million-sq-ft Intellion Edge in Gurugram, sources said.

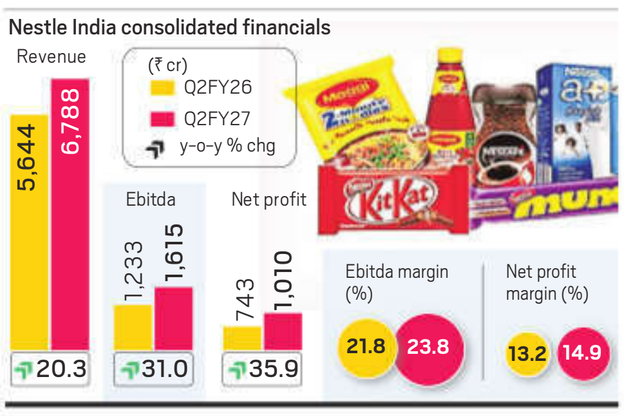

"They have decided to exit the two assets as the fund life is coming to an end," a source said.

When contacted, Tata Realty and Infrastructure did not offer any comments, while CPPIB declined to comment.

The proposed sales would also help TRIL reduce its debt, a source said. The company had standalone debt of ₹1,218 crore as of March 2026.

CMD flags food inflation & input cost challenges

ASHUTOSH MISHRA
New Delhi, October 15

NESTLE INDIA ON Thursday reported a 36% year-on-year increase in consolidated net profit to ₹1,009.6 crore for the quarter ended September 2026, marginally beating Bloomberg estimates of ₹1,004 crore. The FMCG major posted a net profit of ₹743.2 crore in the year-ago period. Revenue from operations rose 20.3% to ₹6,788.3 crore, surpassing Bloomberg estimates of ₹6,717 crore.

The growth was led by strong double-digit volume growth across product categories, higher brand investments and improved input cost ratios, the firm said. Total sales rose 20.5% to ₹6,782.2 crore. Earnings before interest, tax, depreciation and amortisation (Ebitda) increased 31% to ₹1,615.5 crore from ₹1,232.7 crore a year earlier.

Ebitda margin improved to 23.8% from 21.8% in the year-ago period, according to the company.

The firm's management highlighted concerns on inflation and rising costs. "Rising inflation, particularly food inflation, is a reality," said Manish Tiwary, CMD, Nestle India.

"We remain focused on navigating these external challenges through continuous innovation and renovation, sustained investments behind our brands, and an intensified focus on productivity and operational efficiencies to mitigate commodity cost pressures," he added.

Stellantis to invest ₹4,000 cr in India

NITIN KUMAR
New Delhi, October 15

STELLANTIS INDIA PLANS to invest ₹4,000 crore in the country and launch 12 products across its Jeep and Citroën brands under its FaSTLAne 2030 road map, aiming to triple domestic sales volumes by the end of the decade. The automaker plans to combine its global engineering capabilities with Indian partnerships and local development to expand its presence in a market where its brands have struggled to gain traction.

The product offensive will comprise seven all-new models and five major upgrades to existing vehicles, with the first launch scheduled for April-June 2027, Shailesh Hazela, chief executive officer and managing director of Stellantis India, said on Thursday.

Stellantis sold 11,718 vehicles in India in FY26, accounting for around 0.25% of the market. Hazela said the firm had nearly exhausted its earlier investment commitment of more than ₹11,000 crore, and the fresh investment would support the new product programme.

Of the seven all-new models, Jeep will introduce four — SUVs in the B, C and D segments and a D-segment pickup. Citroën will add three models: a C-segment SUV, a D-segment multi-purpose vehicle and an A-segment car. Jeep currently sells the Compass, Wrangler, Meridian and Grand Cherokee, while Citroën's portfolio includes the C3, BasaltX, AircrossX and C5 Aircross.

The new products will draw on three sources of capability: Stellantis' in-house engineering, its global engineering network and partnerships, including local collaborations. The firm has a manufacturing joint venture with Tata Motors and recently signed an agreement with Tata Motors Passenger Vehicles and Tata Passenger Electric Mobility.

PV dispatches increase 22% in September

THE AUTOMOBILE INDUSTRY extended its growth momentum in September, with passenger vehicle dispatches to dealers rising 21.8% year-on-year to 454,574 units. Sequentially, the growth rate moderated from 36.5% in August. According to data released by Siam on Thursday, two-wheeler dispatches rose 13.5% to 2.46 million units in September from 2.17 million, while three-wheeler volumes increased 16% to 98,162 units from 84,635 units. —FE BUREAU

INSTITUTIONS SHOULD EARN STAKEHOLDER TRUST

Oversight must keep pace with growth: RBI DG

FINANCIAL EXPRESS MODERN BFSI SUMMIT 2026

FE BUREAU
Mumbai, October 15

RESERVE BANK OF India (RBI) Deputy Governor Swaminathan J on Thursday said oversight and internal controls must strengthen as financial institutions grow, warning that expansion without adequate safeguards could undermine long-term sustainability.

Speaking at the Financial Express Modern BFSI Summit in Mumbai, Swaminathan said institutions must treat stakeholders, particularly customers, fairly and earn their trust every day to build sustainable balance sheets.

"Oversight and controls should also grow, commensurate with or keep pace with the growth of the organisation. Then you are building a model that is sustainable," he said.

Growth, he emphasised, should not be measured merely by its pace, scale or size, but also by the strength of the controls underpinning it.

Swaminathan said the Indian financial system was entering its next phase from a position of strength, supported by improved asset quality and comfortable capital buffers. The challenge, however, was to preserve these strengths as the system expanded, became more technology-intensive and increasingly interconnected.

SWAMINATHAN J, DEPUTY GOVERNOR, RBI

> All products are made fairly accessible, but are they affordable as well? If not, then they will reach only a small market and leave out a large market

He outlined three priorities for financial institutions. First, as institutions pursue growth and reduce friction, controls must evolve alongside business processes. Second, trust must be treated as an asset requiring continuous investment. Third, resilience must be measured not merely by the ability to withstand disruptions, but also by how quickly institutions can detect problems, take decisions and recover.

He said customer trust was tested every day through the sale of financial products, the handling of customer data and the resolution of grievances.

The deputy governor also stressed the importance of making financial products and services affordable, while responding to a question on the draft insurance guidelines proposing tighter commission norms.

He emphasised that achieving the vision of universal access to insurance, investments, social security and pensions under Viksit Bharat 2047 would require financial institutions to bring down the cost of delivering these products and services.

"All products are made fairly accessible, but are they affordable as well? If not, then they will reach only a small market and leave out a large market," Swaminathan said.

He said affordability was an important consideration behind the proposed guidelines. The Insurance Regulatory and Development Authority of India (IRDAI) would examine the feedback received from stakeholders before taking a final decision.

Asked whether tighter commission norms could hurt banks' fee income, Swaminathan said the loss of one revenue stream would not threaten the industry, as banks would find alternative sources of income.

Excessive regulations penalise compliant businesses: Piramal

FE BUREAU
Mumbai, October 15

PIRAMAL GROUP CHAIRMAN Ajay Piramal on Thursday said India needs to adopt a more liberal regulatory approach, instead of framing increasingly complex rules to prevent wrongdoing by a few. Excessive regulation was penalising businesses that comply with the law, he said at the FE Modern BFSI Summit 2026.

While the government often speaks about liberalisation, regulatory authorities continue to tighten rules, Piramal said. "Why penalise the 99% of the people who are following rules?"

Calling for greater policy stability, Piramal criticised abrupt regulatory changes, particularly in the insurance sector. "That is not reform. That is not bringing down the cost. It is actually going to reduce the availability of insurance."

Piramal said such changes could unsettle investors who had committed capital based on the prevailing regulatory framework. "You can't make changes every few months. There has to be some steadiness," he said, adding that policymakers should provide adequate transition periods for significant regulatory changes.

He also pointed to changes in long-term capital gains taxation as an example of policy uncertainty that could affect perceptions about the Indian economy despite its strong growth.

Piramal said the Reserve Bank of India had significantly strengthened compliance and risk management standards, particularly for large NBFCs, leaving limited scope for excessive risk-taking.

BSE chairman wants more SMEs to enter capital mkt

KUSHAN SHAH
Mumbai, October 15

STOCK EXCHANGES AND market participants must step up efforts to bring more small and medium enterprises (SMEs) into the capital markets to help meet their funding needs, BSE Chairman Subhasis Chaudhuri said on Thursday..

In recent times, more SMEs got listed through the SME platforms of the exchanges, leading to high value of funds raised through the primary market, he said at the Financial Express Modern BFSI Summit.

Despite refusing to specify his preferred method to determine the settlement prices of derivative contracts on expiry day, Chaudhuri said the use of volume-weighted average price is more meaningful and provides more statistical efficacy compared to the price discovered using order matching.

He also discussed issues related to the use of AI agents to execute trade transactions and said while this can be possible in the future, the technology currently faces regulatory issues due to lack of guardrails."Exchanges are not ready for this change currently. For use of agentic AI in trade transactions to succeed, it is very important to establish trust of individual and institutional investors by ensuring safety and transparency..."

FERR meant for only rupee derivative contracts: RBI

PRESS TRUST OF INDIA
Mumbai, October 15

NEW REQUIREMENTS RELATED to the foreign exchange reserve ratio (FERR) will be applicable only to derivative contracts involving the purchase of foreign currency against the rupee, the Reserve Bank said in a detailed set of FAQs on Thursday.

The RBI on October 10 announced several regulatory measures, including the introduction of FERR, for the foreign exchange market against the backdrop of significant rupee depreciation. Since then, the domestic currency has strengthened against the dollar.

The RBI's list of frequently asked questions (FAQs) on FERR specifies which foreign exchange derivative contracts undertaken by authorised dealers with users will be subjected to such requirement.

The FERR is a reserve that authorised dealers must maintain with the Reserve Bank of India for qualifying rupee-based foreign exchange derivative contracts. It applies to foreign exchange derivative contracts involving INR undertaken by an authorised dealer with users and to hedge the currency risks of their own assets and liabilities.

'User' means any person, whether resident in India or resident outside India, other than an authorised dealer.

The FAQs said the reserve required to be maintained by authorised dealers applies only to derivative contracts where the user purchases foreign currency against INR. The requirement does not apply to derivative contracts where users sell foreign currency against the rupee.

Fairfax plans to transfer stakes in Go Digit, IIFL Capital to IDBI Bank

FE BUREAU
Mumbai, October 15

FAIRFAX FINANCIAL HOLDINGS on Thursday proposed to transfer its stake in Go Digit and IIFL Capital to IDBI Bank, making the lender the holding company of the businesses. Fairfax has 30.2% stake in IIFL Capital and 49% in Go Digit.

This follows the Cabinet's approval on Wednesday for the sale of a 60.72% stake in IDBI Bank to a subsidiary of Fairfax Financial Holdings for ₹52,878.08 crore. The transaction is the largest foreign direct investment in India's financial sector.

"Combining IDBI Bank, Digit, and IIFL Capital would create an entity that is well-positioned to participate in the continued growth and success of Indian markets. We expect it will provide meaningful and significant benefits to Indian consumers and businesses," Fairfax said in a statement.

COMBINED UNIT

- Fairfax has 30.2% stake in IIFL Capital and 49% in Go Digit
- Combined unit will be well-positioned to participate in the continued growth and success of Indian markets, Fairfax said
- Governance, management or operational structure of Digit & IIFL Capital unlikely to see any change

The company believes that a revitalised IDBI Bank that can offer clients insurance products through Digit and investment banking and wealth management services through IIFL Capital would be in a very competitive position to take advantage of this growth.

Fairfax expects the combined entity's operations to continue under the leadership of Rakesh Sharma, IDBI Bank's current MD and CEO. It also plans to include CVR Rajendran, former CEO of CSB Bank, in the leadership, and NS Kannan, former MD and CEO of ICICI Prudential Life Insurance and former CFO of ICICI Bank, as the chairman. These appointments will require approvals of the Reserve Bank of India.

It does not expect the proposed contribution transactions to bring about any changes in the governance, management or operational structure of either Digit or IIFL Capital.

"Fairfax currently expects the purchase price for the purchase transaction to be satisfied through a combination of cash on hand or otherwise available to Fairfax through existing credit sources and potential asset sales. In connection with the contribution transactions, Digit and IIFL Capital would be contributed to IDBI Bank at their respective market prices, all in accordance with all applicable law and regulation," the company said.

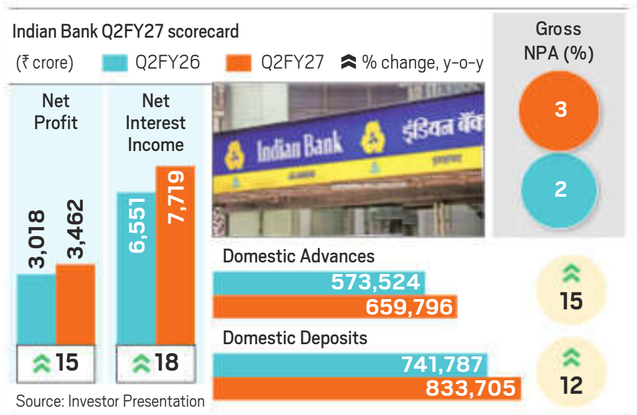

Bank unions to hold protest today

Bank unions will observe a nationwide black badge protest on Friday against the proposed privatisation of IDBI Bank. In a statement, the United Forum of Bank Unions (UFBU) opposed the government's plan.

The unions argued that IDBI Bank, which holds public deposits of around ₹3.5 lakh crore, has returned to profitability, and reported a net profit of ₹9,513 crore in FY26.

Indian Bank net profit rises 15%

REPORT CARD

NARAYANAN V
Chennai, October 15

INDIAN BANK ON Thursday reported a 15% year-on-year increase in its net profit to ₹3,462 crore for the second quarter of FY27, supported by growth in both interest and non-interest income. Interest income of the state-run lender rose 15% year-on-year to ₹19,106 crore, while interest expenses grew 13.43% to ₹11,387 crore, resulting in an 18% expansion in net interest income to ₹7,719 crore.

Non-interest income jumped 59% to ₹3,953 crore, driven by foreign exchange gains and fee income. Operating profit rose 46.58% to ₹7,090 crore during the quarter. "We had some share of NSE, which has got listed and we got the benefit of around ₹1,400 crore," Managing Director Binod Kumar told *FE*.

Domestic advances grew 15.04% year-on-year to ₹6.59 lakh crore, outpacing deposit growth of 12.39% to ₹8.34 lakh crore. Total business grew 14% to ₹15.96 lakh crore.

Kumar said the bank had been maintaining a deposit-credit gap of 1-1.15% over the past three-four quarters. The gap widened during the quarter due to FCNR (B) deposits, as customers took loans against these deposits at the bank's overseas branches. "The credit-to-deposit (CD) ratio at overseas branches is invariably 100%, Going forward, my endeavor will be to maintain it in the range of 1-1.5%."

South Indian Bank posts record Q2 profit

South Indian Bank on Thursday reported its highest-ever quarterly net profit of ₹426.13 crore for the second quarter of FY27, driven by a strong growth in net interest income. The lender had posted a net profit of ₹351.37 crore in the same quarter last year. Net interest income rose 38% year-on-year to ₹1,116 crore, while operating profit increased 37% to ₹732 crore. The bank's net interest margin improved to 3.33% from 2.80% in Q2FY26. Gross advances grew 19% year-on-year to ₹1.09 lakh crore, while retail deposits increased 15% to ₹1.29 lakh crore.

L&T Finance profit rises 33% on retail loan growth

KSHIPRA PETKAR & CHRISTINA TITUS
Mumbai, October 15

L&T FINANCE ON Thursday reported a 33% year-on-year rise in its consolidated net profit to a record ₹975 crore for the quarter ended September, supported by strong retail loan growth, improving asset quality and lower credit costs.

The consolidated loan book grew 28% year-on-year to ₹1.37 lakh crore, while the retail book expanded 29% to ₹1.35 lakh crore. Retail disbursements increased 27% on year to ₹24,027 crore.

Net interest margins plus fees improved 26 basis points to 10.48%, while return on assets rose to 2.60% from 2.41% a year earlier. Gross Stage 3 assets declined to 2.75% from 3.29%, while net Stage 3 assets improved to 0.85% from 1%. Credit costs moderated to 2.46% from 2.54% in the preceding quarter.

Managing Director and CEO Sudipta Roy told *FE* that the company has already begun exercising caution in rural lending amid concerns over deficient rainfall and El Nino conditions. "We have already tempered our rural distribution, and you can see the real growth this quarter came from our urban products," Roy said, adding that the company would maintain similar caution during the third and fourth quarters.

However, he does not expect a sharp deterioration in the asset quality. The company expects to maintain an annual loan book growth trajectory of over 20%, supported by festive demand and stronger urban lending.

'Credit life policies hold key role in expansion'

NARAYANAN V
Chennai, October 15

HDFC LIFE INSURANCE has made representations to the insurance regulator on the importance of credit life insurance in extending coverage to borrowers at the bottom of the pyramid, even as Irdai proposes to sharply cut commissions on these policies..

"We have made representations collectively at different forums..." Vibha Padalkar, MD & CEO of HDFC Life Insurance, said during the insurer's second-quarter earnings call. She added that while insurers and the regulator share the objective of delivering the best value to customers, the need for protection among borrowers at the bottom of the pyramid remains.

Credit life insurance, often sold with bank and NBFC loans, covers a borrower's outstanding loan in the event of their death, protecting their family from the burden of repaying the debt.

Vibha Padalkar, MD & CEO, HDFC Life Insurance

Padalkar said the regulator's objective was to make insurance more inclusive, adding that credit life insurance played an important role in achieving this goal. According to HDFC Life, credit life policies serve borrowers in the social sector and microfinance segment, including those with annual incomes of less than ₹2.5 lakh to ₹3 lakh, who may not be adequately reached through retail insurance products.

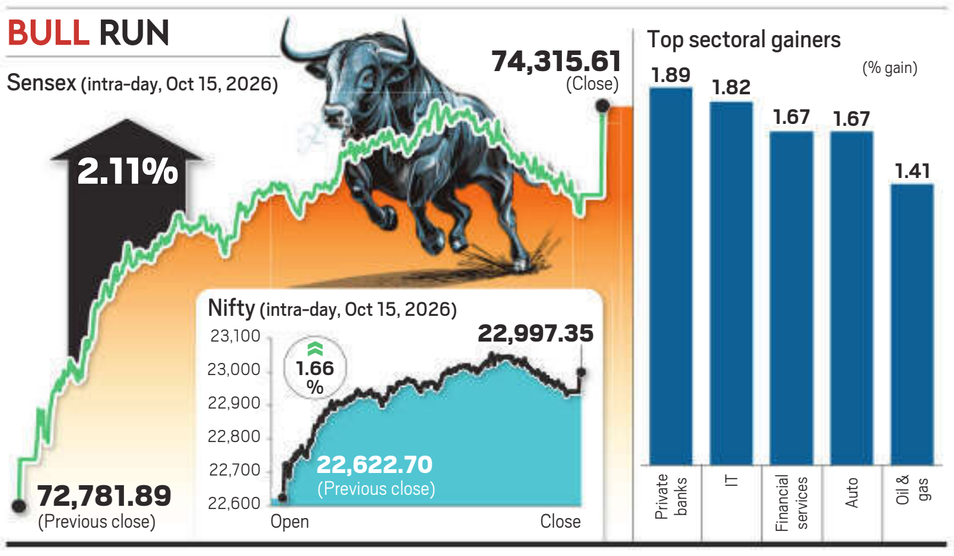

"The number of lives (covered under credit life) is almost 5x or thereabouts than the retail number of lives. So, getting to 'Insurance for All by 2047' without the reach of credit life could be quite difficult," Padalkar said.

Meanwhile, HDFC Life Insurance reported a 13.6% year-on-year increase in net profit to ₹508 crore for the July-September quarter, compared with ₹447 crore in the year-ago period. Net premium income rose 15.7% to ₹21,727 crore from ₹18,777 crore a year earlier.

Indices defy Asian sell-off

● Sensex soars more than 1,500 points, Nifty closes just below 23,000 mark

KISHOR KADAM
Mumbai, October 15

EQUITIES BUCKED A sharp sell-off across Asian markets on Thursday, with the Sensex soaring more than 1,500 points and the Nifty ending just shy of the 23,000 mark. Hopes of an early India-US trade deal, easing crude oil prices and a stronger rupee lifted sentiment, making domestic benchmarks the best performers in the region.

However, while heavyweight stocks drove the benchmarks higher, the broader market remained under pressure, with declining stocks outnumbering advancing ones. Foreign portfolio investors also continued to withdraw funds from Indian equities.

The Sensex surged 1,533.72 points, or 2.11%, to close at 74,315.61, while the Nifty rose 374.65 points, or 1.66%, to settle at 22,997.35.

Both benchmarks recorded their biggest single-day gains in four months. Foreign investors remained net sellers, offloading shares worth ₹5,285.37 crore on Thursday. Their cumulative outflows in October reached ₹44,008 crore, or about $4.6 billion, the highest in five months.

Domestic institutional investors (DIIs) provided some support, purchasing equities worth ₹3,319.39 crore during the session.

The sharp rebound came amid renewed optimism over a breakthrough in trade negotiations between India and the US. US Ambassador to India Sergio Gor said on Thursday that the two countries were close to finalising a trade agreement, with most major issues resolved, according to *Bloomberg*.

The optimism helped Indian equities stand out in an otherwise weak session for Asian markets. South Korean stocks plunged 7.57%, while Japanese and Taiwanese benchmarks tumbled 4.90% and 3.41%, respectively.

AI-related stocks across the US and Asian markets witnessed heavy selling amid concerns over another US Federal Reserve rate hike in October, following an increase in US inflation to 3.7% in September.

The sell-off in global technology stocks appeared to improve the relative appeal of Indian software companies, triggering renewed buying in the sector.

The Nifty IT index gained 8.4% over three consecutive sessions, including a 1.82% rise on Thursday.

The combined market capitalisation of leading IT companies increased by ₹1.97 lakh crore over the period.

HCL Tech, Tata Consultancy Services and Infosys were among the major beneficiaries of the renewed buying interest. Private banks, automobiles and financial services stocks also contributed to the rally.

Reliance Industries emerged as another key driver, climbing 4.03% to ₹1,223.30 following the announcement of the Jio Platforms IPO. Heavyweights ICICI Bank and HDFC Bank also lent support to the indices.

"Buying interest strengthened through the session, supported by optimism around the ongoing earnings season and improved sentiment following the easing in crude oil prices," said Ajit Mishra, SVP–Research, Religare Broking.

Vinod Nair, head of research at Geojit Investments, said: "Indian equities rallied sharply as concerns over stretched AI valuations and higher US inflation triggered a sell-off across tech-heavy global markets, improving India's relative appeal and encouraging rotation toward domestic large-cap technology, private financials and defensive heavyweights."

On the BSE, 2,670 stocks declined against 1,716 advances.

Sebi restores old settlement price formula for expiry-day derivatives

● Closing auction session shifted to 3:30–3:45 pm

KUSHAN SHAH
Mumbai, October 15

IN A SIGNIFICANT CHANGE aimed at addressing concerns over sharp price swings during the closing auction session (CAS), the Securities and Exchange Board of India (Sebi) on Thursday decided to restore the earlier method of determining settlement prices for index and stock derivatives on expiry days.

Sebi also shifted the 15-minute closing auction session to 3:30–3:45 p.m. from the existing 3:15–3:30 p.m. window and introduced changes to the order placement and matching process. The revised framework will come into effect on December 7.

Under the new rules, settlement prices of index and stock derivatives on expiry days will once again be determined using the volume-weighted average price (VWAP) of constituent securities or the underlying stock during the last 30 minutes of the continuous trading session in the cash market. This marks a return to the pre-CAS methodology and is expected to reduce the impact of sharp price fluctuations during the closing auction on derivative settlements.

The stock exchanges will also be required to calculate and disseminate the indicative VWAP of underlying stocks and indices, giving market participants greater visibility into potential settlement prices.

The changes follow episodes of extreme volatility during the closing auction, when sharp swings in indicative prices raised concerns among market participants over their impact on derivative settlements.

Settlement of expiring derivatives contracts to be based on a VWAP methodology using the last 30 minutes of continuous trading

The transition from continuous trading to CAS will now take just one minute, from 3:30 pm to 3:31 pm, compared with five minutes currently. This will be followed by a five-minute window, until 3:36 pm, during which investors can place both limit and market orders.

A second four-minute window, from 3:36 p.m. to 3:40 p.m., will allow only limit orders. The session will close randomly during the final two minutes of this window, after 3:38 p.m. Market orders cannot be cancelled or modified during this period.

Stock exchanges will begin matching orders after 3:36 p.m. in accordance with the CAS framework. The final closing price and quantity of securities executed will be communicated to market participants as soon as practicable.

The regulator has also revised trading hours for derivatives to align them with the new auction timings. Trading in index derivatives will continue until 3:45 pm on normal trading days. However, on expiry days, index derivatives trading will end at 3:30 pm, before the closing auction begins.

Stock derivatives, on the other hand, will continue trading until 3:45 pm on all trading days, including expiry days.

For the cash market, the reference price used in the closing auction will be based on the VWAP of trades executed during the final 15 minutes of continuous trading. If a security does not trade during this period, its last traded price will be used. In cases involving corporate actions, the previous day's closing price will be suitably adjusted to arrive at the reference or base price.

Sebi has also provided for all unexecuted limit and iceberg orders. Now, they will automatically move into CAS, except stop-loss orders and those falling outside the price bands applicable during CAS.

Iceberg orders, which allow large orders to be placed in smaller disclosed portions, will enter CAS as fully disclosed limit orders unless investors choose to opt out when placing the original orders. However, such iceberg orders will receive lower priority.

Sebi has prescribed separate arrangements for special trading sessions. The closing auction will have the same duration as on normal trading days, while derivatives trading will continue for five minutes after CAS ends. A 10-minute post-close session will begin five minutes after the derivatives segment closes.

UCO Bank profit rises 27% to ₹786 cr in Sept quarter

STATE-RUN UCO BANK on Thursday reported a 27% year-on-year increase in net profit to ₹786 crore for the quarter ended September 2026, driven by growth in core interest income.

The lender's interest income rose 11% year-on-year to ₹7,286 crore, while non-interest income remained largely flat at ₹888 crore. Sequentially, however, non-interest income plunged 47.35% from ₹1,686 crore in the first quarter, primarily due to lower treasury income and reduced recoveries from bad loans. Treasury income fell sharply to ₹29 crore in the September quarter from ₹163 crore in the preceding quarter. Recoveries from technically written-off accounts declined 70% to ₹301 crore during the quarter. On the business front, domestic advances grew faster than deposits. Domestic advances rose 26% year-on-year to ₹2.57 lakh crore, while domestic deposits increased 15% to ₹3.32 lakh crore. The lender has guided for deposit growth of 10-12% and credit growth of 12-14% for FY27.

Jio Platforms eyes asset-light global tech push

THE COMPANY EXPECTS the telecom industry to add 340 million 4G and 5G customers between FY26 and FY31. As of June 30, 2026, Jio had 533.3 million customers, including nearly 285 million 5G users. Growing this base, while expanding home broadband, enterprise offerings and digital services, will be central to its domestic growth strategy.

Ambani also outlined plans to take Jio's technology beyond India, opening up a potential revenue stream that does not require the company to build and operate networks in every market it enters. Rather than sell hardware or software separately, Jio intends to offer its end-to-end technology stack as a managed service, partnering with local telecom operators in both developing and developed economies.

"Our international strategy is a bit different. Today, what we have is our end-to-end stack that is already operated on our network. Now we want to find the right partners so that we can roll this out again," he said. The model would allow Jio to monetise technology that has been deployed on its own network, with the scale of the opportunity becoming clearer as it signs its first overseas customers.

The broader ambition is to capture a significant share of the opportunities emerging from the country's expanding digital economy. Ambani expects the economy to reach $1.4 trillion by FY31, driven by rising data consumption and the digitisation of businesses and services. "We expect a $1.4 trillion digital economy by FY31; we will take a huge market share of this," he said.

Sunrise for Japanese FDI

The recent surge is the silver lining in the India investment story

THE LATEST OFFICIAL numbers on foreign direct investments (FDI) indicate that Japan was the largest source of inflows into India in the April-June quarter of FY27. This welcome development reflects an accelerating uptrend during the last few years. This surge is also corroborated by data of the Japan External Trade Organization (JETRO) which also indicates that Japan has been investing more in India than China since 2023. These developments reflect the broader context of closer bilateral ties after Shinzo Abe became the Prime Minister of Japan 20 years ago. He shared a warm equation not only with PM Narendra Modi but also former premier Manmohan Singh. The India-Japan Special Strategic and Global Partnership was established during his tenure and bolstered by successive PMs including the present one, Sanae Takaichi, who regards Abe as her mentor and made her first visit to India.

This special partnership envisioned that the economies of both countries would be powered by robust bilateral investment and trade. Last year, a target was set for mobilising $68 billion (10 trillion yen) of Japanese private investments into India over the next decade. Modi and Commerce and Industry Minister Piyush Goyal have indicated that so far more than 200 business agreements have been concluded, paving the way for over $10 billion of FDI. The April-June spike in inflows of $5.7 billion—as against an average of $697 million in April-June quarters of the previous six years—was driven by financial sector transactions and acquisitions and greenfield manufacturing investments. The biggest deal was Mitsubishi UFJ Financial Group acquiring a stake in Shriram Finance for $4.4 billion in April, and there are reports that it now seeks majority control entailing an additional investment of $10 billion.

Geopolitical factors, including ongoing tensions with China, are also responsible for Japan's rising investments in India. Around 1,259 more Japan's companies now operate in the country from the 5,205 companies operating in 2024. In sharp contrast, a record number of Japanese companies have closed their operations in the mainland. As of June, they are down to 10,118 with an established presence, representing a steep 22% decline from 2024 according to the *Financial Times*. Net FDI flows to India have sharply risen from $6 billion in 2023 to $7.6 billion in 2025, while investments in China sharply declined from $3.4 billion to $1.6 billion over this period. In April-June 2026, FDI to India was 10 times higher than what went to China, according to JETRO. Japanese chemical firms in the semiconductor and agrochemical space are reportedly relocating to India as part of their China Plus One strategy.

The uptick in Japanese FDI is indeed a silver lining for India's ongoing efforts to attract investments to prop up its beleaguered external accounts. The big question is, what must be done to sustain this uptrend? The financial sector players, who are leading the charge into India, seek greater simplification of processes for profit repatriation, improved access to capital markets, and regulatory predictability. Like other foreign investors, the Japanese, too, have serious concerns regarding the complicated legal and tax system, difficult labour issues, inadequate infrastructure, poor contract enforcement, among others. There is also no better way of honouring Abe's legacy on improving bilateral ties than ensuring that the flagship Shinkansen bullet train project between Ahmedabad and Mumbai is completed to the satisfaction of both India and Japan.

CONFINE OR DEFINE?

REGULATORY ENERGY HAS GONE INTO POLICING HOW THEY EXIT; ALMOST NONE DEFINE HOW THEY CAN ENTER

India's family office riddle

V SHUNMUGAM

Partner, MCQube

NEARLY $29 BILLION was remitted from India under the Liberalised Remittance Scheme (LRS) in 2025-26, following $29.6 billion the previous year. The RBI is closely monitoring a critical trend: remittances for overseas equity and debt investments rose by 83% year-on-year in October 2025 and continued to rise in May this year. Including the approximate $26 billion associated with the 3,500 millionaires Henley & Partners predicted would leave India in 2025, the flow of family capital is clearly shifting. Saving a dollar domestically sustains more value for India than sending it abroad, as there was no profitable opportunity within the country—yet, instead of creating opportunities, the regulatory focus has so far been on controlling outflows.

The enforcement has been strict. In August 2023, Premji Invest and Catamaran submitted applications to establish Family Investment Funds (FIF) in GIFT-IFSC, a vehicle specifically created by Indian regulation for family capital. Premji Invest received provisional approval in January 2024, but by August 2024, the IFSCA had halted FIF approvals following RBI feedback that the structure could bypass the $250,000 LRS limit and facilitate illicit outflows. Throughout 2025, applications remained on hold as authorised dealer banks and the central bank debated how to classify FIF contributions under FEMA. When the first FIF was registered this April, it was for a UK-based family rather than an Indian one. Coupled with the 20% tax collected at source on LRS remittances since October 2023, this sends a message to Indian wealth: surveilled on exit, private at home.

In the meantime, the message's audience has evolved. In 2018, India had about 45 family offices; by 2024, the count neared 300, managing upwards of $30 billion, with over $1.5 trillion of intergenerational wealth transfer expected in the next decade. These offices support startup investments, pre-IPO funding, and private credit portfolios. The younger generation studies, works, and settles abroad; the office tracks the heirs, and the financial assets follow the office.

Herein lies the asymmetry. India's regulatory energy has gone into policing how family offices exit; almost none has gone into defining how they can enter. Family office appears nowhere in the regulatory rulebook—no registration category, no classification, no privileges. Our rules for alternative investment funds (AIFs) simply carve family trusts out when they serve relatives. That is an exemption from a licence, not a recognition of what the office is. A firm that manages money for several families falls under portfolio management or investment advisory rules, which regulate the service it sells, not the family office itself.

Our rules for AIFs simply carve family trusts out when they serve relatives. That is an exemption from a licence, not a recognition of what the office is

They are not qualified institutional buyers (QIBs), so anchor books, qualified institutional placements (QIPs) and institutional allocations remain closed to capital that is institutional in scale but end up classified as HNIs. Whatever recognition exists today came as a side effect of other rules. A family trust that meets certain wealth thresholds can claim accredited investor status. And a family trust with a net worth of ₹500 crore qualifies as a strategic investor under the rules for infrastructure investment trusts, as amended in December 2025. Neither provision was written with family offices in mind.

Contrast what competing jurisdictions actually do. The US wrote the definition into its rulebook: under the SEC's Family Office Rule of 2011, a family office is an adviser that serves only family clients, is wholly owned and controlled by the family, and does not hold itself out to the public—and any office meeting that three-part test is exempt from registration under the Investment Advisers Act. Singapore defines and then directs: the MAS 13O and 13U schemes grant tax exemption to single-family offices with minimum assets of S$20 million and S$50 million respectively, provided they hire investment professionals locally, meet business-spending floors, and deploy the lower of 10% of assets or S$10 million in Singapore's own markets. Incentivised single-family offices rose from 400 in 2020 to over 2,000 by end-2024; approvals now target a three-month timeline. Hong Kong's 2023 legislation specifies that a family-owned investment vehicle, with at least HK$240 million (roughly $30 million) managed by an eligible local family office, benefits from a zero-profit tax rate on qualifying gains, with the number of such entities increasing to about 3,384 by the end of 2025. Meanwhile, Dubai's DIFC established the Family Arrangements Regulations in 2023 and validates offices via its dedicated Family Wealth Centre. Currently, over 120 families, with combined wealth near $1.2 trillion, are registered there. Define, certify, condition—this is the sequence every hub operates on.

India can run that sequence onshore, in four moves:

Define: Bring the single-family office (proprietary capital of listed relatives) and the multi-family office (client capital, licensed) into the securities market lexicon.

Certify: Build on the accreditation architecture: offices above a stated threshold (the ₹500 crore already used in InvIT regulations is one candidate) register voluntarily and file annual portfolio disclosures.

Privilege: Registered offices earn QIB treatment in public issues and anchor books; access to QIPs and corporate-bond private placements; strategic-investor slots in REITs and InvITs; Large-value funds and the accredited-investor-only AIF category; and margin-efficient hedging on commodity and interest-rate derivatives.

Provide a vehicle: A domestic FIF analogue with pass-through clarity, so pooling family capital does not require Singapore or Dubai.

On the outbound side, replace freezes with guardrails—classify resident contributions to FIFs under FEMA, cap them, have them reported. The laundering concern is answered by sunlight on a named entity, not by indefinite ambiguity.

The gains from getting this right are here and concrete.

A dollar retained: Capital dissuaded from leaving compounds in Indian markets.

Patient, countercyclical money: A domestic institutional class to anchor books and bond issues when FPI flows reverse.

Onshore risk capital: Startup and pre-IPO cheques written from India, not through offshore SPVs.

Succession anchored: Heirs stay economically tied to Indian market infrastructure when the family's investing identity is Indian.

Regulatory visibility: Registration delivers the family-wealth data we depend on, with no assurance of its reliability, from private sources we currently hear about.

Lastly, Sundaram Alternates projects that family-office assets will rise 50% to $45 billion in three years. The question is which jurisdiction's rulebook it will compound under. Capital, like the next generation, settles where it is recognised. We should stop managing the departures and start writing the definition.

Missing out on benefits of job-hopping

FOR MOST OF my adult life, "job hopping" has been portrayed in the popular media as: Something that's happening more and more, especially among young adults. And kind of bad.

In the economics literature, it's an entirely different story. "Job changing is a critical component of workers' movement toward the stable employment relations of mature careers," Robert H Topel and Michael P Ward wrote in a seminal 1992 *Quarterly Journal of Economics* article in which they showed that early-career job changes had been responsible for more than a third of wage growth among a sample of 10,000 young American men tracked from the late 1950s through early 1970s. "The wastefulness of this 'try and try again' process of advancing to a better position is self-evident," they continued. "Nevertheless it is the principal method by which workers at the present time improve their condition on their own initiative." Many studies since have advanced this argument.

Meanwhile, the statistics on early-career job switching show that—contrary to popular belief—there's much less of it going on than there used to be. And that could be a problem.

The big drop-off came in the 2000s, which happens to have been both a tough decade to be looking for a job—payroll employment kept falling and unemployment rising for almost two years after the 2001 recession had supposedly ended, then another recession hit in 2008—and the founding era of the modern online job-matching infrastructure of LinkedIn, Indeed, Glassdoor, ZipRecruiter, and the like.

Cyclical drops in job-switching due to weak labour markets are clearly bad. The long-run decline is more complicated. On the negative side, it's part of a broader decrease in business dynamism since the '80s that includes a drop in entrepreneurial activity and may be weighing on productivity growth. But it's also possible that the rise of an online job-matching infrastructure and other changes have made it easier for young adults to find jobs that fit them rather than having to "try and try again". One 2022 study showed that since the 1990s employment tenures of just one or two quarters—jobs that don't work out, basically—have much become less common, concluding that "better matching accounts for about one third of the overall decline in the level of worker turnover observed in the United States over the last two decades".

JUSTIN FOX

Bloomberg

The rise and fall of early career job-switching since the Covid-19 pandemic seems to be mostly a cyclical thing. Monthly numbers show a big increase in job-switching among all age groups during the so-called Great Resignation of 2021 and 2022—which could more accurately have been termed the Great Job Switch—and a decline for all of them since.

More recently there appears to be some divergence by age group, with job-switching among those 25 and older back on the rise and at pretty high levels relative to the past two decades, but those 16 through 24 are treading water near historic lows. It's way too early to say with confidence what's going on here, but the much-discussed research showing that employment of younger workers is lagging behind in industries most exposed to generative AI might contain part of the explanation. Another impact of AI that could be hurting younger workers is that it has made it so easy to mass-apply for jobs that the online job-matching infrastructure that had worked pretty well for a couple of decades is now gummed up. At the same time, the inflationary environment of the past few years seems to have increased the rewards to job-hopping. In early 2023, a few months after inflation had peaked, job switchers were seeing wage growth more than two percentage points higher than stayers. The premium disappeared for a while amid the weak job market of 2025, but has been growing again lately.

A major theme of my fellow columnist Allison Schrager's new book, *Worth the Risk: The Seven Myths That Keep Us from Taking the Chances We Need*, is that young Americans have become more risk-averse than previous generations and that this is holding them back. Changing jobs is a risk that has a long history of paying off for young workers, and while it may not be quite as essential to career progress as it once was, it clearly still brings rewards. If you are young and somebody tells you job hopping is bad, maybe advise them to read up on some labour-market economics.

The twists in the tale on forex front

MADAN SABNAVIS

Chief Economist, Bank of Baroda

The central bank has paid obeisance to the rational expectations school in the manner in which it has addressed the forex situation in the last few months

THE NAMES OF Thomas Sargent, Neil Wallace, and Robert Lucas are associated with the rational expectations school of economics. It made a mark by professing that the best way to make policy work and reach the desired end is to surprise the market. The theory argued that if everyone knew the policy, they would react accordingly and the end result would be predictable and not meet the objective. However, the surprise element would be very effective.

The RBI has paid obeisance to these principles in the manner in which it addressed the forex situation in the last four months or so. Starting with the June policy when the reforms on the debt side were made for foreign portfolio investors (FPIs), the new foreign currency non-resident (FCNR) deposit scheme was brought in. This was after stating clearly that the forex reserves position was very strong and covered 11 months of imports. Yet the scheme was announced. In hindsight, it does look like the central bank was aware of the fragilities of the market.

The impact was strong as the rupee strengthened by almost 90 paise in a couple of days. There was a rush to get the deposits in as the RBI clarified through an FAQ that leverage could be provided to draw in the dollars. This brought in further buoyancy and the rupee remained largely stable; the expectation was that it would strengthen and could go to 93-94 to the dollar.

On August 14, the RBI announced to terminate the scheme by the month-end, as the response was very good and the three routes brought $57 billion. This had a shock effect to begin with as the rupee lost around 30 paise in a week but then recouped losses by the month-end. Ultimately, around $143 billion came in via the schemes with $133 billion from FCNR.

Some of the numbers related to the inflows are noteworthy. The RBI's foreign currency assets were at $543 billion on June 5, on the eve of credit policy. They peaked at $648 billion on September 4 after the window closed although banks were given time for swaps till September 11. The currency reserves have come down to $604 billion, as of October 2. This could be due to valuation issues (dollar has become stronger) and the RBI's dollar sales to steady the rupee.

The entire episode involving FCNR flows reflects the strength of 'surprise' element in the announcements

On the other side, data on the RBI's spot market activity shows an increase of $19 billion in June and July. Further, the outstanding forward position was $200 billion in August when it increased by $103 billion.

The banking story too is interesting. Banks have added around ₹24 lakh crore between May and September. If $133 billion was swapped at say ₹96/$, the FCNR accrual would have been around ₹12.8 lakh crore. Bank credit rose by around ₹15 lakh crore, leading to a total surplus of around ₹9 lakh crore.

While banks were euphoric about the FCNR inflows as they were exempt from cash reserve ratio (CRR), statutory liquidity ratio, and priority sector stipulations, besides the forward premia being borne by the central bank, surplus funds had a carrying cost. Some were absorbed by the open market operations conducted by the RBI. The next surprise for the market was the announcement on October 9 raising daily CRR balances by banks. The announcement came post-policy, after which bond yields rose. It led to a further increase in bond yields. One interpretation was that this move would help get FPIs into the debt market as the spread between Indian and US yields had come to a low of 200 basis points.

However, the rupee has remained weaker. This is surprising since the current account deficit is stable and low. While FPI flow is negative, the numbers are low—this was witnessed earlier too. Clearly, the situation based on fundamentals was stable, if not satisfactory.

Later announcements on the forex derivative market were the next surprise that came over the weekend. The measures are aimed at curbing speculative activity as the limits for trading with no underlying has been reduced and the rebooking of cancelled contracts not permitted. This has had a positive effect on the markets. An interesting step is banks maintaining 20% of the notional value of derivative contracts of over $2 million in a new reserve with the RBI. It would mean that there is another effective liquidity drawn down from the system akin to the daily cash maintained by banks for CRR. This will push up hedging costs and may cause firms to reconsider their options for hedging. But the impact on the currency has been quite sharp; if the rupee remains in the range of 95-96 for a week, it may be concluded that the measures have worked. It would vindicate the view that the rupee fall was more due to the speculative activity rather than fundamentals.

Hence, the entire episode involving FCNR flows reflects the strength of "surprise" element in the announcements. Also, in retrospect, the FCNR scheme was very much called for. Hypothetically, not having it would have made RBI interventions more challenging given that forex currency reserves have declined after peaking by over $40 billion. One can debate if the schemes should have been terminated prematurely, as getting more dollars in would have helped. However, all the funds have to be repaid in three-five years. Quite clearly, these issues would have been on the table when a decision was taken.

LETTERS TO THE EDITOR

IDBI stake sale

Apropos of "Privatisation at last" (*FE*, October 15), the proposed IDBI Bank stake sale must be judged by its impact on competition, public accountability, and financial stability. Privatisation can improve efficiency, but change of ownership alone cannot guarantee better banking. The government must ensure transparent valuation, credible bidders, and adequate safeguards for employees, depositors, and customers. Regulatory oversight should be firm, particularly in lending practices and customer protection. PSBs too need professional management and greater operational freedom. The objective should be a stronger banking system, not just a disinvestment target. The Centre must explain how the transaction will help taxpayers and strengthen the sector in the long run.
—SM Jeeva, Chennai

Accountability is key

The IDBI Bank sale offers vital lessons for future disinvestment. The prolonged process highlights the need for realistic valuation, transparent bidding, and flexibility in fixing reserve prices. The gap between market prices and intrinsic value warrants independent, multiple valuation methods. Competitive bidding must secure fair returns to taxpayers without deterring genuine investors. Regulatory scrutiny should safeguard financial stability, while employee and depositor interests remain protected. Privatisation must deliver better governance, efficiency, and credit delivery, not merely immediate revenue. Public accountability should remain paramount even after ownership changes.

Flipping the playbook

WITH CONSUMER JOURNEYS BECOMING INCREASINGLY FRAGMENTED, ADVERTISERS ARE ANCHORING THEIR STRATEGIES AROUND THE POINT OF PURCHASE

CHRISTINA MONIZ

ACCORDING TO A marketing playbook launched recently by Amazon Ads, MMA Global and WPP Media, the number of consumer touchpoints that drive 80% of the purchase decisions have nearly doubled from 12 in 2018 to 21 in 2024. Around 59% of marketers surveyed by MMA Global India said they now view retail media as a full-funnel channel.

With the media ecosystem becoming increasingly fragmented, advertisers are now devising strategies that deliver measurable outcomes usually in the form of sales or revenue uptick. Willy-nilly they are increasingly looking at retail media as a full-funnel channel—which essentially means that discovery, evaluation and purchase now take place across streaming, search and online shopping channels. In particular, the checkout counter has become the centre of gravity for brand building, moving away from large, mass media campaigns.

"Brand building used to be a megaphone. You bought the prime-time slot and hoped the whole country heard," opines Manish Solanki, COO & co-founder, TheSmallBigIdea. Today, he says, the brand building function is best compared with a dinner party, where the brand has to be a good guest in a lot of small conversations. "Winning the mind matters, but the basket is where it gets tested. Offline, that means impulse zones, endcaps in modern trade, and visibility at the kirana counter. Online, quick commerce has become the new checkout counter," observes Solanki.

The reasons are not far to seek. The checkout counter is the brand's or even the outlet's last opportunity to increase basket value before a customer leaves. Impulse purchases sit at the heart of this manoeuvre.

Many brands are diverting more of their budgets this festive season towards retail media, quick commerce placements, gifting bundles and the like. However, mass media hasn't been replaced – it's been re-sequenced. Digital-first brands have gone right back to cricket, TV and outdoor advertising for scale. E-commerce or quick commerce advertising cannot match mass media's scale.

According to Chetan Asher, founder & CEO, Tonic Worldwide, the big ad campaigns still matter but brands need to carry that idea through to where the consumer actually shops. "The message can change with the context, but the brand needs to remain recognisable. I would be careful about treating brand building and retail media as competing choices. Retail media can help build preference as well as close a sale," says Asher. He recommends that advertisers use the checkout counter strategically, identifying a clear benefit for consumers and an appropriate offer to maximise its potential.

Going beyond clicks

Retail advertising has been growing at 25-30% annually, much higher than overall advertising expenditure, which is growing at 8-10%, as per industry estimates. While retail has reshaped the media mix, gradually moving budgets towards the point of sale, industry observers agree on the need for accurate attribution.

The role of measurement is critical here. Akshay Chaturvedi, chief business officer, VDO.AI, points out that a sale recorded after an advertisement may not necessarily be a sale caused by it. "Brands should examine whether checkout advertising is increasing basket value, encouraging additional purchases or bringing new products into consideration. That is a more meaningful measure of effectiveness than the number of impressions delivered around the point of purchase," he says.

He also notes that investing heavily in checkout advertising will come with certain limitations. If marketers move too much of their investment towards the point of purchase, they risk becoming more efficient at capturing existing demand without doing enough to expand it, he says. Channels such as connected TV, digital video or creator collaborations can help with brand-building and building consideration, complementing the role that retail media plays in the consumer journey.

As retail media and personalised targeting scale, brands will need to understand incremental impact, attribution accuracy and the quality of traffic better, observes Amit Relan, co-founder & CEO, mFilterIt. "The opportunity lies in connecting media exposure to actual business outcomes, while safeguarding consumer trust. Sustainable growth will depend not just on how precisely brands target consumers, but on how confidently they can verify the value each investment creates," he notes.

The swift adoption of quick commerce, social commerce and live commerce has also created what observers call a "connected commerce ecosystem", shortening the pathway between advertising exposure and purchase. CTV is also opening up new possibilities, as brands dabble with QR codes in ads that direct viewers towards a marketplace or quick commerce platform, making the move from advertising to commerce easy.

The opportunity for marketers is to move beyond thinking of commerce as a point of conversion and instead recognise its role across the entire growth journey, from building consideration to driving action and measuring business outcomes. "The next phase of media growth will come from connecting these signals and investments into one coherent view of the consumer," sums up Sairam Ranganathan, head of commerce, WPP Media India.

MOVING THE GOALPOST

- The number of touchpoints required to drive 80% of purchase decisions nearly doubled from 12 in 2018 to 21 in 2024

59% of advertisers today view retail media as full-funnel marketing solution

55% of marketers plan to raise retail media spending in 2027

- While overall advertising expenditure is growing annually at 8-10%, retail media is expanding at 25-30%

LOOKING FOR TAX BREAKS

How India taxes equity gains and why it is back in focus

India's equity taxation framework is once again in focus. Questions are being raised around the structure of capital gains tax & securities transaction tax, & whether the current regime requires further rationalisation. The main trade-off is between revenue, simplicity and encouraging long-term investing, writes ***Maadhav Poddar***

₹46,840 cr

STT COLLECTIONS FROM APRIL 1 TO OCTOBER 14, 2026, UP 51.6% FROM THE SAME PERIOD A YEAR AGO

MOST COUNTRIES DO NOT LAYER A TRANSACTION TAX LIKE STT ON TOP OF A GAINS TAX

How has capital gains taxation on equities evolved in India over the years?

INDIA'S TAXATION REGIME for listed equity gains has changed several times over the decades. Initially, after independence, gains from equity holdings were taxed as ordinary income. From the mid-1980s, short-term and long-term gains were separated.

In 2004, the securities transaction tax (STT) was introduced and where STT is paid, long-term equity gains were made exempt and short-term equity gains were made taxable at a concessional rate 10%. The short-term rate rose to 15% in 2008.

Budget 2018 brought back a 10% long-term tax on gains from equity above ₹1 lakh, with gains before January 31, 2018 grandfathered.

Budget 2024 raised short-term capital gains (STCG) tax to 20% from 15% and long-term capital gains (LTCG) tax to 12.5%, with equity gains up to ₹1.25 lakh exempted from the latter.

Budget 2026 left these capital gains tax rates unchanged.

How have changes in LTCG/ STCG rates influenced investors?

TAX CHANGES HAVE mostly caused short-lived reactions rather than lasting shifts in participation. The 2004 exemption plus STT encouraged long-term equity holding and broadened retail interest. The 2018 reintroduction of long-term tax triggered a brief market dip, but grandfathering softened the blow and flows continued. Budget 2024's higher rates caused a sharp one-day fall, yet participation kept growing. Investors adapted instead: some harvest gains within the ₹1.25 lakh exemption, hold longer to avoid the 20% short-term rate, or trade derivatives, which are taxed as business income. Surging demat accounts and SIP inflows owe more to digital access, low costs and rising incomes than to tax.

Has this affected the attractiveness of equity investing?

IT HAS DENTED attractiveness at the margin, but not decisively. The higher rates cut post-tax returns, especially for short-term traders and active investors, and pushed some toward longer holding periods. Foreign investors, already weighing stretched valuations and weaker earnings growth, have also pointed to the tax as one more drag. Even so, domestic participation held up, with systematic investment plan (SIP) inflows and new demat accounts staying strong, since long-term investors face a modest 12.5% rate and a ₹1.25 lakh exemption. Equity remains tax-competitive against debt funds, gold and property, so valuations, earnings and global flows also matter equally as tax.

How could a more investor-friendly LTCG regime look like?

A MORE INVESTOR-FRIENDLY regime would probably combine several features that market participants often propose. First, a higher annual exemption than ₹1.25 lakh, or a lower tax rate, ideally indexed to inflation so investors are not taxed on purely nominal gains. Second, relief for STT, either as a deduction or a credit against capital gains tax, to ease the double-taxation concern. Third, a tapering rate that falls the longer shares are held. Finally, rate stability, because frequent changes create uncertainty.

Does levying both raise concerns of double taxation?

LEGALLY THEY CAN coexist, because they tax different things. STT is a levy on the value of each transaction, paid whether you make a profit or a loss. LTCG is a tax on realised gains. India briefly treated them as alternatives: the 2004 STT replaced the long-term gains tax. The 2018 return of LTCG alongside STT is what triggered the double-taxation complaints. Investors argue that STT is not deductible against gains and is paid even on losing trades, so it adds a cost on top of the tax. The government counters that STT is a low-rate tax, easily collected levy on transactions, not on income. Market bodies have repeatedly asked for relief, but STT has stayed, and Budget 2024 raised it on futures and options.

How do other countries levy taxes on capital gains?

CHINA, INDONESIA, PHILIPPINES, South Korea, Malaysia, Taiwan, Thailand and Vietnam do not levy a capital gains tax on non-residents on sale of listed equity. Singapore and Hong Kong exempt gains on shares and rely on deep markets and other revenue, which shows that low or zero taxes can help attract capital. Most countries do not layer a transaction tax like STT on top of a gains tax. Stable, predictable rules matter everywhere. The main trade-off is between revenue, simplicity and encouraging long-term investing.

MINE STRIKE RAISES FRESH ALARM OVER VITAL OIL ROUTE

Hormuz tensions flare after tanker fire and ship sinking

AGENCIES
Tehran/Dubai October 15

A CARGO SHIP sank after striking a naval mine in the Strait of Hormuz. A cargo ship sank after striking a naval mine in the Strait of Hormuz, Iran's Revolutionary Guard Corps navy said. It was the first time Iran had reported a ship sinking after hitting a mine during the war.

Shipping officials, meanwhile, said two Singapore-registered cargo vessels had been hit by "unknown projectiles" as they went through the strait on Tuesday and Wednesday. One sank, while the other reached safety. All crew members were evacuated from the first ship, and no injuries were reported in either incident, the Maritime and Port Authority of Singapore said. "Such attacks are unprovoked, unjustifiable and a breach of international law," the authority said. It was unclear, however, if the Singapore-flagged vessel that sank was the same ship. Iran said had struck a mine.

There were few details from Iranian officials, including about the fate of the crew. State television quoted a Guard statement saying the ship was traveling on what it called an illegal and dangerous route when it hit the mine Wednesday morning.

The unidentified ship, which was shown tilted in the water and spewing a thick plume of smoke, was carrying 2,500 containers, the broadcast said.

US weighs 'mother of all bombs'

THE US MILITARY has developed strike plans that could include using the GBU-43/B Massive Ordnance Air Blast Bomb, also known as the "mother of all bombs", against Iranian energy infrastructure and nuclear sites if US President Donald Trump orders renewed combat operations, CNN reported citing US officials familiar with the matter.

The potential deployment of the largest non-nuclear bomb in the US arsenal would mark a significant escalation in the conflict, although officials familiar with military planning discussions told CNN questions remain over its effectiveness in achieving Washington's strategic objectives.

CNN further reported that the US military has prepared additional strike packages targeting Iranian facilities, including energy infrastructure, as well as nuclear sites such as Pickaxe Mountain. The options could be considered if Trump decides to resume combat operations either before or after the midterm elections. **—REUTERS**

PRE-IPO MEET

Anthropic's revenue jumps 45% to $16.8 billion in Q3

MILANA VINN & KRYSTAL HU
New York/San Francisco, October 15

ANTHROPIC TOLD PROSPECTIVE investors on Wednesday that revenue in the third quarter surged 45% from the prior quarter, two people who attended an investor day said, a move that could assuage market concerns about the huge costs of developing AI systems.

Third-quarter revenue rose to $16.8 billion from $11.6 billion in the second quarter and $4.7 billion in the first quarter, the people said. Anthropic told the group the company was profitable on an adjusted basis in the third quarter, they added.

The meeting in San Francisco was meant to familiarise prospective Anthropic investors with the company before its highly anticipated IPO.

The IPO is expected to precede a public listing by rival OpenAI, making Anthropic an early test of investor appetite for loss-making AI developers investing heavily to pursue massive scale. Its public-market debut is likely to be pushed until after the November US midterm elections, *Reuters* has reported.

Attendees at Wednesday's event met with Anthropic CEO Dario Amodei and Chief Financial Officer Krishna Rao and came away optimistic about the company's rapid revenue growth and path to profitability, a few of them told *Reuters* as they left its headquarters in the evening. Amodei reiterated the company's focus on AI safety but avoided mentioning threats of human extinction, one person in the group said. In its prospectus seen by *Reuters* last month, Anthropic warned that advanced AI could pose "catastrophic or existential risks to humanity."

Safety incidents: FTC turns up heat on Anthropic and OpenAI

THE US FEDERAL Trade Commission has sent civil subpoenas to AI giants Anthropic and OpenAI, seeking documents about safety incidents, Axios reported on Wednesday, citing a person familiar with the matter.

The probe comes amid mounting AI safety concerns after models reportedly hacked websites and behaved deceptively or aggressively in testing, highlighting the risks of increasingly autonomous systems and the adequacy of safeguards against harm. Last month, *Reuters* reported that the FTC planned an industry-wide investigation into AI companies.

The FTC also plans to compel executives at top AI developers, including Anthropic, OpenAI and the research group METR to testify. The FTC, OpenAI and Anthropic did not immediately respond to requests for comment on the Axios report.

The regulator's demands run to more than 50 pages each and seek information on security incidents, safeguards, marketing materials and privacy policies, the news website reported.

The FTC has broad authority to sue companies over unfair or deceptive practices, and has used that authority in the past to take action against companies for failing to take reasonable measures to secure consumers' data. FTC Chairman Andrew Ferguson suggested in an interview with *Reuters* last month that developers who instruct agents in cybersecurity tests that result in hacks should be liable for any harm they cause. **—REUTERS**

SC strikes down YES Bank's...

"... WE ARE REVIEWING the SC judgment and will determine the appropriate course of action," it said.

Kotak AMC also suspended subscriptions to both funds to safeguard the interests of existing investors. In a typical bank restructuring or bankruptcy, equity shareholders are expected to absorb losses before bondholders. However, under the government-backed rescue plan for YES Bank in March 2020, equity shareholders were spared a complete write-off, while AT1 bonds were written down to zero. The SC also came down heavily on the RBI. "The RBI was a bystander, allowing the CET1 ratio of YES Bank to drop to a low of 0.6% while the business of YES Bank was being carried out in a clandestine manner," the court observed.

The judgment also questioned the role of the RBI, the administrator and YES Bank in handling the bonds. It described their conduct in dealing with bonds worth more than ₹8,415 crore as "to put it mildly, questionable", adding that it would be unfair to make investors bear the consequences of administrative lapses. The dispute dates back to March 2020, when YES Bank's AT1 bonds were written off as part of a reconstruction exercise to rescue the distressed private sector lender. In January 2023, the Bombay HC quashed the write-off following petitions filed by bondholders.

Paras K Parekh, partner at law firm CMS IndusLaw, said that with the write-off set aside, the bonds should be restored. Once restored, YES Bank would also be required to pay accrued coupon interest for the period from 2020 to date. "Technically, the bank can seek a review, but the scope for entertaining a review is very limited and exercised sparingly," he said. Rohit Sharma, partner at Phoenix Legal, agreed that while the bank could seek a review, obtaining relief would be difficult, particularly since the HC had also struck down write-off.

He said the judgment provided clarity on certain issues and could help restore investor confidence. Since AT1 bonds are typically held by sophisticated investors, it is important to ensure that they remain confident about investing in such instruments. "If the issue affects YES Bank's revival, the RBI may relook into it. However, the decision rests entirely with the central bank. It may revisit the original proposal to convert them into equity. Ultimately, the RBI will have to take the final call," Sharma said.

The SC had reserved its judgment in February after hearing the parties but subsequently reopened the matter, seeking further clarification from the Centre on the decision-making process behind the write-off. During a hearing in May, the court directed the finance ministry to furnish details of the Cabinet meeting and related documents concerning the approval of the reconstruction scheme and the decision to extinguish the bonds. Defending the write-off, the finance ministry argued that an adverse interpretation of the RBI's Basel III framework could have far-reaching implications for the banking system, particularly the loss-absorption mechanism built into AT1 instruments.

The ministry told the court that banks had issued around ₹1 lakh crore worth of AT1 bonds and warned that weakening their loss-absorption feature could undermine their effectiveness as regulatory capital. It maintained that AT1 bonds were inherently risky instruments designed to absorb losses when banks faced financial stress. Any judicial interpretation diluting this feature could weaken confidence in such instruments and affect their future use as a source of regulatory capital, it argued. The government also contended that the write-off was crucial to securing SBI's participation in the rescue of YES Bank.

According to the ministry, SBI had agreed to infuse ₹7,810 crore into the troubled lender on the understanding that the AT1 bonds would be written off. The Centre warned that reversing the write-off could have implications beyond YES Bank, discouraging lenders from participating in future rescue operations involving financially distressed banks. Such an outcome, could undermine the broader objectives of the Basel III capital framework and make it harder to mobilise capital to protect depositors and maintain financial stability.

Sebi plans overhaul of listing rules

THESE MEASURES INCLUDED the introduction of abridged prospectuses to help investors better understand companies' business models and valuations. However, disclosures could facilitate informed investment decisions but could not guarantee listing gains.

He cautioned against the disproportionate emphasis on listing-day returns and pointed out that these are influenced by prevailing market conditions. Investors must distinguish between trading and investing and assess their risk appetite before entering the market.

Citing record systematic investment plan (SIP) inflows in recent months, Pandey said a growing number of investors were recognising the benefits of long-term investing and compounding across market cycles.

On the futures and options (F&O) segment, he said the regulator was seeking to strike a balance between making investors aware of the risks involved and ensuring that excessive regulation did not stifle market development.

Addressing the sustained selling by foreign portfolio investors (FPIs) in India's secondary markets, Pandey described the outflows as cyclical, driven partly by relatively lower post-tax dollar returns in India compared with other markets.

He said Sebi was engaging with foreign investors to address their key concerns and ease regulatory friction. While overseas investors were reallocating capital to markets offering better recent returns, they continued to have confidence in India's macroeconomic fundamentals and long-term growth prospects, he added.

Pandey also identified deepening the cash and corporate bond markets as key priorities for Sebi. The regulator is reviewing several other frameworks, including the stock lending and borrowing mechanism and the SME IPO regulations, as part of its broader efforts to improve market efficiency and ease compliance.

Paper on hospital billing soon: Seth

RATHER THAN FOCUSING solely on complaint volumes, insurers must examine root causes, resolution timelines, reopened cases, escalations and recurring grievances to improve outcomes.

On distribution economics, Seth said premiums must adequately cover expected risks, operating expenses and distribution costs. Rising acquisition and servicing costs, without corresponding improvements in coverage or service, erode policyholder value and put pressure on premiums or insurer margins. "Affordability means both price and value," he said.

Seth stressed that distribution should not be viewed merely as a sales function, as it also involves risk assessment, product explanation, documentation, servicing and customer relationships.

Distributor remuneration,

therefore, should reflect product complexity, channel, effort, service quality and customer outcomes, he said.

Last month, Irdai issued a consultation paper proposing tighter product- and channel-specific commission caps across life, health and general insurance. The proposals seek to align commissions more closely with the effort and costs involved in distributing insurance products.

"High commissions are not automatically unjustified," Seth said, noting that complex risks may require substantial effort in assessment, documentation and underwriting. Conversely, low-cost distribution channels do not necessarily guarantee better service.

He said the proposed distribution reforms have four objectives: improving policyholder value, strengthening competition, widening and enhancing distribution efficiency, and ensuring greater accountability.

During a fireside chat later, Seth said he had met representatives of more than 40 insurers and 10 distributors since the consultation paper was released.

"Everybody is saying the direction is right and the strategy is right," he said.

However, he acknowledged that insurers and distributors operate across different segments, business models and capacities to improve efficiency. These differences, he said, must be considered while determining the transition to a more efficient operating model.

Seth did not specify whether Irdai would provide a glide path for implementing the proposed changes.

He said the consultation paper, issued ahead of draft regulations, was intended to give stakeholders another opportunity to provide feedback and facilitate an orderly transition.

"Everybody is saying to take care of or facilitate an orderly transition to an efficient frontier, which is our aim to begin with," Seth said.

SPECIAL WINDOW - RE-LODGEMENT FOR TRANSFER AND DEMATERIALISATION OF PHYSICAL SECURITIES

Securities and Exchange Board of India ("SEBI") had discontinued transfer of physical shares from 1st April, 2019. However, a special window was opened by SEBI from 7th July, 2025 to 6th January, 2026, for re-lodgement of physical share transfer requests originally submitted before 1st April, 2019 but returned due to deficiencies in documentation.

In order to facilitate the Investors, the SEBI vide its Circular No. HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated 30th January, 2026 has decided to open another special window for one year from 5th February, 2026 to 4th February, 2027. While lodging request under special window for transfer of physical shares, one of the mandatory requirements is submission of original share certificate which is as follows:

Execution Date of transfer deed	Lodged for transfer before 1st April, 2019?	Original Security Certificate Available?	Eligible to lodge in the current window?
Before 1st April, 2019	No (it is a fresh lodgement)	Yes	Yes
	Yes (it was rejected/returned earlier)	Yes	Yes
	Yes	No	No
	No	No	No

Further, the following cases will not be considered under this window:

- Cases involving disputes between transferor and transferee.
- Securities which have been transferred to Investor Education and Protection Fund (IEPF).

Shareholders who have missed the earlier deadline for re-lodgement of transfer deeds are once again encouraged to take advantage of this opportunity by furnishing the necessary documents to the:

a. Company's RTA i.e. **MUFG Intime India Private Limited** (Formerly Link Intime India Private Limited) at email id investor.helpdesk@in.mpms.mufg.com or their office at C-101, Embassy 247, L.B.S. Marg, Vikhroli (West), Mumbai - 400 083 or

b. Company at its registered office mentioned above or at ctil.investorrelations@adityabirla.com. Further, the shares so transferred shall be mandatorily credited to the transferee only in demat mode and shall be under lock-in for a period of one year from the date of registration of transfer. Such securities shall not be transferred/ lien-marked/ pledged during the said lock-in period.

UPDATION OF KYC AND CONVERSION OF PHYSICAL SHARES INTO DEMATERIALISED FORM

Shareholders holding equity shares in physical form are encouraged to update their KYC details and **convert their physical shares into dematerialised (electronic) form. Holding shares in demat form offers multiple benefits and eliminates the risks associated with physical share certificates.**

"The energy, innovation, and talent of our youth are the greatest forces driving the creation of a developed India. The State Government is fully committed to securing the future of young people and providing them with opportunities to grow and progress."

Pushkar Singh Dhami
Chief Minister, Uttarakhand

Youth Empowerment

New Opportunities, New Dreams, A New Uttarakhand

"The construction of a developed India in the 21st century rests on two main pillars: first, pride in our heritage, and second, making every possible effort for development. Today, Uttarakhand is continuously strengthening both these pillars. This decade is the decade of Uttarakhand."

Narendra Modi
Prime Minister

Dedicated to Youth Empowerment and a Brighter Future

- A strict anti-cheating law has been implemented in the state. With greater transparency in the recruitment process, talented youth are now being selected for positions across multiple departments. Over the past five years, more than 34,000 youth have secured government jobs.
- The number of people employed under MSMEs increased to 456,605 in 2025, up from 343,922 in 2022.
- The State Government launched the CM Skill Upgradation & Global Employment Scheme. Its budget was increased from ₹75 lakh to ₹3.3 crore. So far, 147 young people have received foreign-language training, and 92 have secured employment in different countries.
- Uttarakhand became the first state in the country to implement the National Education Policy (NEP) 2020.
- The Chief Minister's Higher Education Promotion Scholarship Scheme was launched to support students in higher education.
- The National Games were hosted in Uttarakhand for the first time. At the 38th National Games, Uttarakhand athletes won a record 103 medals.
- Under the new Sports Policy, a historic decision has been taken to provide government employment to national & international-level medal winners.
- The daily diet allowance for state athletes has been increased from ₹250 to ₹480 per athlete per day, on the lines of the Sports Authority of India (SAI).
- Under the Uttarakhand Film Policy, scholarships are being provided to youth who graduate from FTII. Based on course expenditure, 75% scholarship is provided to ST, SC and OBC candidates and 50% to General category candidates.
- Under the Chief Minister's Emerging Players Upgradation Scheme, around 3,900 promising athletes aged 8–14 years across the state are being provided a sports scholarship of ₹1,500 per month.
- Athletes who win medals or participate in national and international competitions such as the Olympics, Asian Games and Commonwealth Games will benefit from a 4% sports quota in government services.

SUBSCRIBERS TO GET CALLER NAMES WITHOUT THIRD-PARTY APPS

No Truecaller? From Nov 1, your phone will tell you who's calling

● CNAP to show callers' names by default, free of cost

FE BUREAU
New Delhi, October 15

KNOW BEFORE 'HELLO'

- DoT directs telecom operators to roll out CNAP
- Service to cover 4G and newer networks
- No separate subscriber request needed
- Operators have conducted trials
- 2G, 3G and landline rollout to be examined
- Saved contacts will show stored names
- Unsaved numbers to show caller names from records
- International calls to display 'International Call'
- Accuracy depends on subscriber records
- Businesses may display verified preferred names
- Displayed names will depend on subscriber record accuracy

FROM NOVEMBER 1, even subscribers who do not use caller identification apps such as Truecaller will be able to see who is calling them, at no extra charge. The government has directed telecom operators to roll out Calling Name Presentation (CNAP) across their service areas, allowing the caller's name to appear alongside the telephone number on the recipient's screen. The pilot for the service had already begun, with calls displaying the names of callers starting to come through on users' phones.

The service will be available by default, without subscribers having to make a separate request. The department of telecommunications (DoT), in a circular dated October 13, said operators had conducted trials to introduce CNAP on 4G and higher-generation wireless networks. Its introduction on 2G and 3G networks, as well as landline networks, will be examined separately.

Under the system, if the caller's number is saved in the recipient's contact list, the name stored on the phone will appear. For unsaved domestic numbers, the name will be drawn from the subscriber records maintained by the originating telecom operator. Calls from international numbers will be labelled 'International Call'. The facility is expected to reduce dependence on third-party applications for identifying unknown callers, although the name displayed will depend on the accuracy of the operator's subscriber records.

CNAP is intended to make caller identification easier, but it is not a guarantee against fraud. Displaying a name does not establish that the caller is genuine or that the purpose of the call is legitimate. The DoT has prescribed technical safeguards, including a requirement that the mechanism used to retrieve and display caller names should not retain the caller's name identity after the call is completed. Operators must also adequately provision their networks and databases to handle queries efficiently and maintain the required quality of service.

For business and bulk connections, operators may allow users to display a preferred name instead of the name in their subscriber records. The preferred name must be supported by a registered trademark or a trade name registered on the Goods and Services Tax portal. Operators will have to verify the name before updating their records and provide existing subscribers with a mechanism to apply for such changes.

The guidelines also require operators to establish grievance redressal mechanisms for complaints relating to CNAP. Subscribers who have activated calling line identification restriction (CLIR), in accordance with existing rules, will be exempt from the facility, and their names must not be displayed.

The rollout follows Rule 48(1) of the Telecommunications (Authorisation for Provision of Principal Telecommunication Services) Rules, 2026, which requires caller identification to be presented in a manner protected against tampering.

● BHARAT BHASKER, DIRECTOR, IIM AHMEDABAD

'Top B-schools see no major placement hit'

*Placement prospects at leading management schools remain strong despite economic uncertainty, **Bharat Bhasker**, director of IIM Ahmedabad, told **Manu Kaushik**. He also discussed plans to expand funding for AI startups, the impact of the West Asia conflict on the institute's Dubai campus and how management education must evolve as businesses increasingly adopt AI.*

With high crude oil prices, rising inflation and global trade uncertainties weighing on the economic outlook, how do you see these factors affecting final placements at IIM Ahmedabad?

We saw some impact last year. However, I can speak for the top five or six institutes in the country, where the impact is likely to be limited. The economy is large, and the pool of high-quality management graduates available for immediate managerial roles remains limited. There are perhaps 25 management schools producing graduates who are ready to take on such roles.

We produce around 400 graduates, and demand for them remains strong, regardless of whether the economy is performing well or poorly. We are unlikely to face a significant negative impact, although lower-ranked management schools could be affected much more.

WE NEED TO PREPARE MANAGERS TO WORK IN AN AI-ENABLED ENVIRONMENT

Oil prices are the biggest crisis facing the economy. Uncertainty around import-export barriers is another concern, although companies have developed alternative export routes and may be able to adjust. However, a severe market crash would affect everyone.

IIM A's Dubai campus was inaugurated in September 2025. How has the West Asia conflict, which began within months of its launch, affected the campus, its students and its operations?

We initially felt the impact. There was considerable uncertainty about how the conflict would develop, and our students were worried. We prioritised their safety and brought them to India, where they stayed for around two to two-and-a-half months. The UAE is now in a stable position, and we are back on track.

SC sends notice to CEC, will hear Jantar Mantar denotification

APURVA VISHWANATH
New Delhi, October 15

THE SUPREME COURT issued notice Thursday on a batch of more than 40 petitions arising from the October 10-11 protests in the Capital seeking the resignation of Chief Election Commissioner Gyanesh Kumar, and agreed to examine the Delhi Police's denotification of Jantar Mantar as a protest site.

In an hour-long charged hearing, a bench, comprising Chief Justice of India Surya Kant and Justice Joymalya Bagchi, also directed the police to preserve all CCTV footage of the protests, amid allegations of excessive use of force by police.

The bench issued notice on several pleas, including a writ petition by INDIA bloc leaders challenging what they called the "unilateral and arbitrary exercise of the collective powers" of the Election Commission in conducting the Special Intensive Revision (SIR) of electoral rolls.

The lead writ petition, Rahul Gandhi v Election Commission of India, names CEC Gyanesh Kumar as a personal respondent, and he will now be required to file a response.

The bench also issued notice to the Election Commission on the modification of Form 6, the paperwork for enrolling a new voter.

It made a pointed remark about one of the 13 petitioners from the INDIA bloc. "We have no problem with the other petitioners... We are issuing notice, but we are not condoning the conduct. Let the petitioner file an affidavit on their conduct," the bench observed, without naming the petitioner.

The bench also issued notice to the EC on modification of Form 6, the paperwork for enrolling a new voter

The Court agreed to hear pleas challenging the denotification of Jantar Mantar. On October 12, police said it had modified its standing order laying down guidelines for protests at the site, declaring that it now stands denotified. It designated three alternative sites: Burari Ground, Ramlila Ground and the CBD Ground.

Appearing for petitioner Swaty Malik, an advocate, former Delhi HC judge and senior advocate Mukta Gupta said the apex court's earlier ruling requires protest sites to be places where protesters can be "heard by the powers that be". Justice Bagchi observed that "the word 'heard' must be understood from the perspective of technology also."

Actor Imran Khan to challenge 'leave India' order in Bombay HC

ACTOR IMRAN KHAN, a US citizen and an OCI cardholder, will move Bombay High Court challenging a notice issued by the Mumbai Police directing him to leave India by October 28 for allegedly violating rules by participating in a political demonstration.

The 43-year-old actor, an Overseas Citizen of India (OCI) cardholder, is likely to file a petition in HC by Friday or Monday through his advocate Zulfiqar Memon.

In the draft petition, the actor has termed the "leave India" directive "drastic" and argued that no provision under the current law or statutory rules prohibits an OCI cardholder from participating in a peaceful protest.

Once filed, the plea is expected to be mentioned for an urgent hearing before a division bench comprising Chief Justice Mahesh Chandra Tripathi and Justice Advait Sethna.

The police action follows Khan's brief detention during an agitation at Mumbai's August Kranti Maidan on October 10. Protesters had gathered at the historical site in solidarity with a demonstration by Cockroach Janta Party in Delhi demanding the resignation of Chief Election Commissioner Gyanesh Kumar over the SIR issue.

The aforesaid renunciation is subject to the specific investor making an application in the Rights Issue in accordance with Regulation 77B(2) of SEBI ICDR Regulations on the Issue Opening Date before 11:00 A.M., and such applications shall not be permitted to be withdrawn.

FACILITIES FOR APPLICATION IN THIS ISSUE:

ASBA Facility: In accordance with Regulation 76 of the SEBI ICDR Regulations, the SEBI ICDR Master Circular and the ASBA Circulars, all Investors desiring to make an Application in this Issue are mandatorily required to use the ASBA process. Investors should carefully read the provisions applicable to such Applications before making their Application through ASBA. For details, see *"Terms of the Issue- Making of an Application through the ASBA process"* on page 110 of the Letter of Offer.

Please note that subject to SCSBs complying with the requirements of the SEBI circular bearing reference number CIR/CFD/DIL/13/2012 dated September 25, 2012, within the periods stipulated therein, Applications may be submitted at the Designated Branches of the SCSBs. Further, in terms of the SEBI circular bearing reference number CIR/CFD/DIL/1/2013 dated January 2, 2013, it is clarified that for making Applications by SCSBs on their own account using ASBA facility, each such SCSB should have a separate account in its own name with any other SEBI registered SCSB(s). Such account shall be used solely for the purpose of making an Application in this Issue and clear demarcated funds should be available in such account for such an Application.

CREDIT OF RIGHTS ENTITLEMENTS IN DEMAT ACCOUNTS OF ELIGIBLE EQUITY SHAREHOLDERS: As your name appears as a beneficial owner in respect of the issued, paid-up and subscribed Equity Shares held in dematerialized form or appears in the register of members of our Company as an Eligible Equity Shareholder in respect of our Equity Shares held in physical form, as on the Record Date, you may be entitled to subscribe to the number of Rights Equity Shares as set out in the Rights Entitlement Letter.

Eligible Equity Shareholders can also obtain the details of their respective Rights Entitlements from the website of the Registrar (i.e., www.in.mpms.mufg.com) by entering their DP ID and Client ID or folio number (for Eligible Equity Shareholders who hold Equity Shares in physical form as on the Record Date) and PAN. The link for such details shall also be available on the website of our Company (i.e., https://www.olaelectric.com).

In this regard, our Company has made necessary arrangements with NSDL and CDSL for crediting of the Rights Entitlements to the demat accounts of the Eligible Equity Shareholders in a dematerialized form. A separate ISIN for the Rights Entitlements has also been generated which is ISIN: INEOLXG20016. This ISIN shall remain frozen (for debit) until the Issue Opening Date. This ISIN shall be suspended for transfer by the Depositories after the Issue Closing Date.

In addition to the present ISIN for the existing Equity Shares, our Company would obtain a separate ISIN for the Rights Equity Shares for each Call, until fully paid-up. The Rights Equity Shares offered under this Issue will be traded under a separate ISIN after each Call for the period as may be applicable under the rules and regulations prior to the record date for the final Call Notice. The ISIN representing the Rights Equity Shares will be terminated after the Call Record Date for the final Call. On payment of the final Call Money in respect of the Rights Equity Shares, such Rights Equity Shares would be fully paid-up and merged with the existing ISIN of our Equity Shares.

Additionally, our Company will submit the details of the total Rights Entitlements credited to the demat accounts of the Eligible Equity Shareholders and the Demat Suspense Account to the Stock Exchanges after completing the corporate action. The details of the Rights Entitlements with respect to each Eligible Equity Shareholders can be accessed by such respective Eligible Equity Shareholders on the website of the Registrar after keying in their respective details along with other security control measures implemented thereat.

Further, if no Application is made by the Eligible Equity Shareholders of Rights Entitlements on or before the Issue Closing Date, such Rights Entitlements shall lapse and shall be extinguished after the Issue Closing Date. No Rights Equity Shares for such lapsed Rights Entitlements will be credited, even if such Rights Entitlements were purchased from market and the purchaser will lose the premium paid to acquire the Rights Entitlements. Persons who are credited the Rights Entitlements are required to make an Application to apply for Rights Equity Shares offered under the Issue for subscribing to the Rights Equity Shares offered under the Issue.

If Eligible Equity Shareholders holding Equity Shares in physical form as on Record Date, have not provided the details of their demat accounts to our Company or to the Registrar, they are required to provide their demat account details to our Company or the Registrar no later than three clear Working Days prior to the Issue Closing Date, to enable the credit of the Rights Entitlements by way of transfer from the Demat Suspense Account to their respective demat accounts, at least two days before the Issue Closing Date. Such Eligible Equity Shareholders holding shares in physical form can update the details of their respective demat accounts on the website of the Registrar (i.e., www.in.mpms.mufg.com). Such Eligible Equity Shareholders can make an Application only after the Rights Entitlements is credited to their respective demat accounts.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI ICDR Master Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialized form.

PLEASE NOTE THAT THE RIGHTS ENTITLEMENTS WHICH ARE NEITHER RENOUNCED NOR SUBSCRIBED BY THE INVESTORS ON OR BEFORE THE ISSUE CLOSING DATE SHALL LAPSE AND SHALL BE EXTINGUISHED AFTER THE ISSUE CLOSURE.

CREDIT OF REs IN COMPANY'S DEMAT SUSPENSE ACCOUNT

Our Company has opened a separate demat suspense escrow account (namely, **"MIIPL OLA ELECTRIC MOBILITY LTD RIGHTS ESCROW DEMAT ACCOUNT"**) ("Demat Suspense Account") and would credit Rights Entitlements on the basis: (a) of the Equity Shares which are held in the account of the Investor Education and Protection Fund ("IEPF") authority; or (b) of the Equity Shares of the Eligible Equity Shareholder whose demat accounts are frozen or where the Equity Shares are lying in the unclaimed/ suspense escrow account / demat suspense account (including those pursuant to Regulation 39 of the SEBI Listing Regulations) or details of which are unavailable with our Company or with the Registrar on the Record Date or where Equity Shares have been kept in abeyance or where entitlement certificate has been issued or where instruction has been issued for stopping issue or transfer or where letter of confirmation lying in escrow account; or (c) where credit of the Rights Entitlements have been returned/reversed/failed for any reason; or (d) where ownership is currently under dispute, including any court or regulatory proceedings or where legal notices have been issued, if any or (e) of such other cases where our Company is unable to credit Rights Entitlements for any other reasons.

Our Company shall credit the Rights Entitlements to the Demat Suspense Account on the basis of information available with our Company and to serve the interest of relevant Eligible Equity Shareholders to provide them with a reasonable opportunity to participate in the Issue. The credit of the Rights Entitlements to the Demat Suspense Account by our Company does not create any right in favour of the relevant Eligible Equity Shareholders for transfer of Rights Entitlement to their demat account or to receive any Equity Shares in the Issue.

With respect to the Rights Entitlements credited to the Demat Suspense Account, the Eligible Equity Shareholders are required to provide relevant details / documents as acceptable to our Company or the Registrar (such as applicable regulatory approvals, self-attested PAN and client master sheet of demat account, details/ records confirming the legal and beneficial ownership of their respective Equity Shares, etc.) to our Company or the Registrar no later than three clear Working Days prior to the Issue Closing Date to enable credit of their Rights Entitlements by way of transfer from the Demat Suspense Account to their demat account at least two days before the Issue Closing Date, to enable such Eligible Equity Shareholders to make an application in the Issue, and this communication shall serve as an intimation to such Eligible Equity Shareholders in this regard. Such Eligible Equity Shareholders are also requested to ensure that their demat account, details of which have been provided to our Company or the Registrar account is active to facilitate the aforementioned transfer. In the event that the Eligible Equity Shareholders are not able to provide relevant details to our Company or the Registrar by the end of three clear Working Days prior to the Issue Closing Date, Rights Entitlements credited to the Demat Suspense Account shall lapse and extinguish in due course and such Eligible Equity Shareholder shall not have any claim against our Company and our Company shall not be liable to any such Eligible Equity Shareholder in any form or manner and such lapsing of Rights Entitlement may dilute and adverse impact the interest of certain Eligible Equity Shareholders.

Further, with respect to Equity Shares for which Rights Entitlements are being credited to the Demat Suspense Account, the Application Form along with the Rights Entitlement Letter shall not be dispatched until the resolution of the relevant issue/concern and transfer of the Rights Entitlements from the Demat Suspense Account to the respective demat account other than in case of Eligible Equity Shareholders who hold Equity Shares in physical form as on the Record Date who will receive the Application Form along with the Rights Entitlement Letter. Upon submission of such documents /records no later than three clear Working Days prior to the Issue Closing Date, to the satisfaction of our Company, our Company shall make available the Rights Entitlement on such Equity Shares to the identified Eligible Equity Shareholder. The identified Eligible Equity Shareholder shall be entitled to subscribe to Equity Shares pursuant to the Issue during the Issue Period with respect to these Rights Entitlement and subject to the same terms and conditions as the Eligible Equity Shareholder.

COMPLETION OF DISPATCH OF ISSUE MATERIAL

The dispatch of the Application Form, Letter of Offer dated October 7, 2026 and Rights Entitlement letter ("**Issue Material**") has been completed on October 15, 2026. In case of Eligible Equity Shareholders who have provided their valid e-mail address to our Company, the Issue Material has been sent to their e-mail address and in cases where Eligible Equity Shareholders have not provided their e-mail address, then the Issue Materials, as applicable has been physically dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

MAKING OF AN APPLICATION THROUGH THE ASBA PROCESS: An Investor, wishing to participate in the Issue through the ASBA facility, is required to have an ASBA enabled bank account with SCSBs, prior to making the Application. Investors desiring to make an Application in the Issue through ASBA process, may submit the Application Form in physical mode to the Designated Branches of the SCSB or online/ electronic Application through the website of the SCSBs (if made available by such SCSB) for authorizing such SCSB to block Application Money payable on the Application in their respective ASBA Accounts. Investors should ensure that they have correctly submitted the Application Form and have provided an authorization to the SCSB, via the electronic mode, for blocking funds in the ASBA Account equivalent to the Application Money mentioned in the Application Form, as the case may be, at the time of submission of the Application. For the list of banks which have been notified by SEBI to act as SCSBs for the ASBA process, please refer to **www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=34**.

MAKING OF AN APPLICATION BY ELIGIBLE EQUITY SHAREHOLDERS, ON PLAIN PAPER UNDER ASBA PROCESS: An Eligible Equity Shareholder in India who is eligible to apply under the ASBA process may make an Application to subscribe to the Issue on plain paper in terms of Regulation 78 of the SEBI ICDR Regulations in case of non-receipt of Application Form as detailed above. In such cases of non-receipt of the Application Form through physical delivery (where applicable) and the Eligible Equity Shareholder not being in a position to obtain it from any other source may make an Application to subscribe to the Issue on plain paper with the same details as per the Application Form that is available on the website of the Registrar or the Stock Exchanges. An Eligible Equity Shareholder shall submit the plain paper Application to the Designated Branch of the SCSB for authorizing such SCSB to block Application Money in such bank account maintained with the same SCSB. Applications on plain paper will not be accepted from any Eligible Equity Shareholder who has not provided an Indian address.

Please note that in terms of Regulation 78 of the SEBI ICDR Regulations, the Eligible Equity Shareholders who are making the Application on plain paper shall not be entitled to renounce their Rights Entitlements and should not utilize the Application Form for any purpose, including renunciation even if it is received subsequently.

The Application on plain paper, duly signed by the Eligible Equity Shareholder, including joint holders, in the same order and as per specimen recorded with his/her bank, must reach the office of the Designated Branch of the SCSB before the Issue Closing Date and should contain the following particulars:

Total Application amount paid at the rate of ₹16.20 per Rights Equity Share; 12. Details of the ASBA Account such as the SCSB account number, name, address and branch of the relevant SCSB; 13. In case of non-resident Eligible Equity Shareholders making an application with an Indian address, details of the NRE / FCNR/ NRO account such as the account number, name, address and branch of the SCSB with which the account is maintained; 14. Authorization to the Designated Branch of the SCSB to block an amount equivalent to the Application Money in the ASBA Account; 15. Signature of the Eligible Equity Shareholder (in case of joint holders, to appear in the same sequence and order as they appear in the records of the SCSB); 16. All such Eligible Equity Shareholders shall be deemed to have made the representations, warranties and agreements set forth in "Restrictions on Purchases and Resales – Representations, Warranties and Agreements by Investors or Purchasers" beginning on page 137. 17. All Applicants in the United States shall include the following:

*"I/ We understand that neither the Rights Entitlements nor the Rights Equity Shares have been, or will be, registered under the U.S. Securities Act of 1933, as amended (the **"U.S. Securities Act"**), or any United States state securities laws, and may not be offered, sold, resold or otherwise transferred within the United States or to the territories or possessions thereof (the **"United States"**), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. I/ we understand the Rights Entitlements and the Rights Equity Shares referred to in this application are being offered and sold in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act (**"Regulation S"**) to Eligible Equity Shareholders located in jurisdictions where such offer and sale of the Rights Equity Shares is permitted under laws of such jurisdictions. I/ we understand that the Issue is not, and under no circumstances is to be construed as, an offering of any Rights Equity Shares or Rights Entitlements for sale in the United States, or as a solicitation therein of an offer to buy any of the said Rights Equity Shares or Rights Entitlements in the United States. I/ we confirm that I am/ we are (a) not in the United States and eligible to subscribe for the Rights Equity Shares and the Rights Entitlements under applicable securities laws, (b) complying with laws of jurisdictions applicable to such person in connection with the Issue, and (c) understand that neither our Company, nor the Registrar or any other person acting on behalf of our Company will accept subscriptions from any person, or the agent of any person, who appears to be, or who our Company, the Registrar or any other person acting on behalf of our Company have reason to believe is in the United States or is outside of India and ineligible to participate in the Issue under the securities laws of their jurisdiction.*

I/ We will not offer, sell or otherwise transfer any of the Rights Entitlements or the Rights Equity Shares which may be acquired by us in any jurisdiction or under any circumstances in which such offer or sale is not authorized or to any person to whom it is unlawful to make such offer, sale or invitation. I/ We satisfy, and each account for which I/ we are acting satisfies, (a) all suitability standards for investors in investments of the type subscribed for herein imposed by the jurisdiction of my/our residence, and (b) is eligible to subscribe and is subscribing for the Rights Equity Shares and Rights Entitlements in compliance with applicable securities and other laws of our jurisdiction of residence.

I/we hereby make the representations, warranties, acknowledgments and agreements set forth in the section of this Letter of Offer titled "Restrictions on Purchases and Resales" beginning on page 137.

I/ We acknowledge that the Company, its affiliates and others will rely upon the truth and accuracy of the foregoing representations and agreements."

In cases where Multiple Application Forms are submitted for Applications pertaining to Rights Entitlements credited to the same demat account or in demat suspense escrow account, as applicable, including cases where an Investor submits Application Forms along with a plain paper Application, such Applications shall be liable to be rejected.

NOTICE TO INVESTORS: The distribution of the Draft Letter of Offer, this Letter of Offer, Application Form and Rights Entitlement Letter and any other offering material (collectively, the "**Issue Materials**") and issue of Rights Entitlement as well as Rights Equity Shares to persons in certain jurisdictions outside India may be restricted by legal requirements prevailing in those jurisdictions. Persons into whose possession the Draft Letter of Offer, this Letter of Offer, the Rights Entitlement Letter or Application Form may come or who receive Rights Entitlement and propose to renounce or apply for Rights Equity Shares in the Issue are required to inform themselves about and observe such restrictions. For more details, see ***"Restrictions on Purchases and Resales"*** beginning on page 137 of the Letter of Offer. Our Company is undertaking this Issue on a rights basis to the Eligible Equity Shareholders and has dispatched the Application Form, the Rights Entitlement Letter, and other Issue material only to email addresses of Eligible Equity Shareholders who have provided an Indian address to our Company and who are located in jurisdictions where the offer and sale of the Rights Entitlement or Rights Securities is permitted under laws of such jurisdictions and does not result in and may not be construed as, a public offering in such jurisdictions. In case the Eligible Equity Shareholders have provided their valid e-mail address, the Issue material is sent only to their valid e-mail address, and in case the Eligible Equity Shareholders have not provided their e-mail address, then the Issue material is dispatched, on a reasonable effort basis, to the Indian addresses provided by them. Investors can also access the Letter of Offer, and the Application Form from the websites of the Registrar to the Issue, our Company, and the Stock Exchanges. The Issue Materials are supplied to you solely for your information and may not be reproduced, redistributed or passed on, directly or indirectly, to any other person or published, in whole or in part, for any purpose. For more details see *"Notice to Investors"* beginning page 12 of the LOF

NO OFFER IN THE UNITED STATES: The Rights Entitlements and the Rights Equity Shares have not been, and will not be, registered under the U.S Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Rights Entitlements and the Rights Equity Shares are only being offered and sold in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act to Eligible Equity Shareholders located in jurisdictions where such offer and sale is permitted under the laws of such jurisdictions. The offering to which the Letter of Offer relates is not, and under no circumstances is to be construed as, an offering of any Rights Entitlements or Rights Equity Shares for sale in the United States or as a solicitation therein of an offer to buy any of the said securities. Accordingly, you should not forward or transmit the Letter of Offer into the United States at any time.

LAST DATE FOR APPLICATION: The last date for submission of the duly completed Application Form or a plain paper Application is Friday, October 30, 2026, i.e., Issue Closing Date. Our Board or the Rights Issue Committee may extend such date for such period as it may determine from time to time, subject to the Issue Period not exceeding 30 days from the Issue Opening Date (inclusive of the Issue Opening Date).

If the Application Form is not submitted with an SCSB, uploaded with the Stock Exchanges and the Application Money is not blocked with the SCSB, on or before the Issue Closing Date or such date as may be extended by our Board or the Rights Issue Committee, the invitation to offer contained in this Letter of Offer shall be deemed to have been declined and our Board or the Rights Issue Committee shall be at liberty to dispose of the Equity Shares hereby offered, as set out in "– Basis of Allotment" beginning on page 128 of the Letter of Offer.

Please note that on the Issue Closing Date, Applications through ASBA process will be uploaded until 5.00 p.m. (Indian Standard Time) or such extended time as permitted by the Stock Exchanges.

Please ensure that the Application Form and necessary details are filled in. In place of Application number, Investors can mention the reference number of the e-mail received from Registrar informing about their Rights Entitlement or last eight digits of the demat account.

LISTING: The existing Equity Shares are listed on BSE Limited (**"BSE"**) and National Stock Exchange of India Limited (**"NSE"**, and together with BSE, the **"Stock Exchanges"**). Our Company has received the "in-principle" approvals from BSE and NSE for listing the Rights Equity Shares to be allotted pursuant to the Issue through their letters, each dated October 6, 2026. Our Company will also make applications to the Stock Exchanges to obtain trading approvals for the Rights Entitlements as required under the SEBI ICDR Master Circular. For the purposes of this Issue, the Designated Stock Exchange is NSE.

DISCLAIMER CLAUSE OF NSE (THE DESIGNATED STOCK EXCHANGE): It is to be distinctly understood that the permission given by NSE should not in any way be deemed or construed that the letter of offer has been cleared or approved by NSE nor does it certify the correctness or completeness of any of the contents of the letter of offer. The Investors are advised to refer to the Letter of Offer for the full text of disclaimer clause of the NSE under the heading ***"Other Regulatory and Statutory Disclosures - Disclaimer Clause of NSE"*** on page 104 of the Letter of Offer.

DISCLAIMER CLAUSE OF BSE: It is to be distinctly understood that the permission given by BSE Limited should not in any way be deemed or construed that the letter of offer has been cleared or approved by BSE Limited, nor does it certify the correctness or completeness of any of the contents of the letter of offer. The Investors are advised to refer to the Letter of Offer for the full text of disclaimer clause of the BSE Limited under the heading ***"Other Regulatory and Statutory Disclosures - Disclaimer Clause of BSE"*** on page 104 of the Letter of Offer.

AVAILABILITY OF ISSUE MATERIALS: Pursuant to the requirements of the SEBI ICDR Regulations and other applicable laws, the Rights Entitlements will be credited to the demat account of the Eligible Equity Shareholders who are Equity Shareholders as on the Record Date, however, the Issue Materials have been physically sent/ dispatched only to such Eligible Equity Shareholders who have provided an Indian address to our Company and only such Eligible Equity Shareholders are permitted to participate in the Issue. The credit of Rights Entitlement does not constitute an invitation to offer or solicitation or offer for participation in the Issue, whether directly or indirectly, and only dispatch of the Issue Materials shall constitute an invitation or solicitation or offer for participation in the Issue in accordance with the terms of the Issue Materials. Furthermore, receipt of the Issue Materials (including by way of electronic means) will not constitute an offer, invitation to or solicitation by anyone in (i) the United States or (ii) any jurisdiction or in any circumstances in which such an invitation or solicitation or offer is unlawful or not authorized or to any person to whom it is unlawful to make such an invitation or solicitation or offer. In those circumstances, this Letter of Offer and any other Issue Materials must be treated as sent for information only and should not be acted upon for subscription to Rights Equity Shares and should not be copied or re-distributed, in part or full. Accordingly, persons receiving a copy of the Issue Materials should not distribute or send the Issue Materials in or into any jurisdiction where to do so, would or might contravene local securities laws or regulations, or would subject our Company or its affiliates to any filing or registration requirement (other than in India). If the Issue Materials are received by any person in any such jurisdiction or the United States, they must not seek to subscribe to the Rights Equity Shares. For more details, see "Restrictions on Purchases and Resales" beginning on page 137 of the Letter of Offer.

In accordance with the SEBI ICDR Regulations and the SEBI ICDR Master Circular, the Application Form, the Rights Entitlement Letter and other Issue Materials have been sent/ dispatched only to the Eligible Equity Shareholders who have provided an Indian address to our Company. In case such Eligible Equity Shareholders have provided their valid email address, the Letter of Offer, the Application Form, the Rights Entitlement Letter and other Issue Materials has sent only to their valid e-mail address and in case such Eligible Equity Shareholders have not provided their valid email address, then the Application Form, the Rights Entitlement Letter and other Issue Materials have been physically dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

Further, the Letter of Offer have been sent/ dispatched to the Eligible Equity Shareholders who have provided their Indian address and who have made a request in this regard.

1 These results have been prepared on the basis of the audited condensed standalone and consolidated interim financial statements which are prepared in accordance with the Indian Accounting Standard (referred to as "Ind AS") 34 - Interim Financial Reporting prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules 2015 and relevant amended rules thereafter. The quarterly and six months period ended financial results have been reviewed by the Audit Committee and have been approved and taken on record by the Board of Directors in its meeting held on October 15, 2026.

2 The Board of Directors at its meeting held on October 15, 2026, has declared a interim dividend of Rs. 15 per equity share on face value of Rs. 5 each (300%).

3 The Board of Directors, at its meeting held on October 15, 2026, approved the issue of bonus equity shares in the ratio of 1:1, i.e., one bonus equity share of Rs. 5 each for every one fully paid-up equity share held by the Members of the Company as on the record date, subject to approval of the shareholders and other applicable regulatory / statutory requirements.

4 The Auditors have issued an unmodified opinion on the audited standalone and consolidated interim financial results and have invited attention to a matter (Emphasis of Matter). The Emphasis of Matter is on account of the financial irregularities committed by the promoters of erstwhile Satyam Computer Services Limited (SCSL) before it was acquired by the Company. SCSL was amalgamated with the Company in June 2013. The Emphasis of Matter and the Management Response on the same is available as part of the detailed Regulation 33 formats posted on the Stock Exchange websites (www.nseindia.com/www.bseindia.com) and the Company's website (www.techmahindra.com).

NOTICE

NOTICE is hereby given that HDFC Trustee Company Limited, Trustee to HDFC Mutual Fund ("the Fund"), has approved the following distribution under Income Distribution cum Capital Withdrawal ("IDCW") Option of **HDFC Arbitrage Fund**, an Open-ended Scheme investing in Arbitrage Opportunities, no investment in InvITs is permitted ("the Scheme") and fixed **Wednesday, October 21, 2026** (or the immediately following Business Day, if that day is not a Business Day) as the Record Date for the same:

Name of the Scheme / Plan(s) / Option(s)	Amount of Distribution (₹ per unit)#	Face Value (₹ per unit)	Net Asset Value ("NAV") as on October 14, 2026 (₹ per unit)
HDFC Arbitrage Fund - Regular Plan - Monthly IDCW Option (Payout and Reinvestment)	0.050	10.00	11.448
HDFC Arbitrage Fund - Direct Plan - Monthly IDCW Option (Payout and Reinvestment)			11.358

#Amount of Distribution per unit will be the lower of that mentioned above or the available distributable surplus (rounded down to a multiple of five at the third decimal) as on the Record Date.

Pursuant to the Distribution, the NAV of the IDCW Option(s) of the above Scheme would fall to the extent of such distribution and statutory levy, if any.

Amount will be paid, net of applicable tax deducted at source (TDS), to those Unit holders / Beneficial Owners whose names appear in the Register of Unit holders maintained by the Fund / Statements of Beneficial Ownership maintained by the Depositories, as applicable, under the IDCW Option(s) of the aforesaid Scheme on the Record Date (including investors whose valid purchase / switch-in requests are received by the Fund and the funds are available for utilization before cut-off timings in respect of the aforesaid Scheme, on the Record date).

With regard to Unit holders who have opted for Reinvestment facility under the IDCW Option(s), the amount due (net of applicable TDS) will be reinvested, by allotting Units at the applicable NAV per Unit (adjusted for applicable stamp duty).

As mandated under SEBI (Mutual Funds) Regulations, 2026 and Master circular for Mutual Funds dated March 20, 2026, for redemptions and IDCW declared, payout will be done only through electronic mode(s), even where a Unit holder has opted to receive physical instruments. Thus, payment of such amounts shall be made through physical instruments, only in exceptional circumstances for reasons to be recorded by the AMC. Accordingly, unit holders who have opted for / have earlier received physical instruments are requested to update their bank account details by / sending us a copy of a cancelled cheque of first / sole holder's bank account.

All updations of PAN, KYC, email address, mobile number, nominee details, etc. should immediately be forwarded to the Investor Services Centers of the Fund (for units held in non-demat form) / Depository Participant (for units held in demat form). Unit holders are also advised to link their PAN with Aadhaar Number. Further, Unit holders can view the Investor Charter available on website of the Fund as well as check for any unclaimed redemptions or IDCW payments.

In view of individual nature of tax consequences, each investor should seek appropriate advice.

Subject: NOTICE UNDER SECTION 13(2) OF THE SECURITISATION AND RECONSTRUCTION OF FINANCIAL ASSETS AND ENFORCEMENT OF SECURITY INTEREST ACT, 2002 (SARFAESI ACT, 2002) READ WITH SECURITY INTEREST (ENFORCEMENT) RULES, 2002 AS AMENDED FROM TIME TO TIME.

Sir,
The undersigned being the authorized Officer of Canara bank, **KALWA (0217)** branch (hereinafter referred to as "the secured creditor"), appointed under the Securitization and Reconstruction of Financial Assets and Enforcement of Security interest Act, 2002, (hereinafter referred as the "Act") do hereby issue this notice to you as under: That **GURUKRUPA CONSTRUCTION PROP. Mr. GIRISH YASHAWANT DALAVI (BORROWER)** (hereinafter referred to as "THE BORROWER"), have availed credit facility/ facilities stated in Schedule A hereunder and have entered into the security agreements in favour of secured creditor.
While availing the said credit facilities, you have expressly undertaken to repay the loan amount/s in accordance with the terms and conditions of the above mentioned agreements.
That, **GURUKRUPA CONSTRUCTION PROP. Mr. GIRISH YASHAWANT DALAVI (BORROWER)** have guaranteed the payment on demand of all moneys and discharge all obligations and liabilities owing or incurred to the secured creditor by the borrower for credit facilities up to the limit of **Rs. 40,00,000/- (RUPEES FORTY LAKHS ONLY)** with interest thereon.
You (The Person mentioned in Schedule B) are also entered in to agreements against the secured assets which are detailed in Schedule B hereunder.
However, from 01/07/2026, the operation and conduct of the said financial assistance/ credit facilities have become irregular. The books of account maintained by the secured assets shows that the liability of the borrower towards the secured creditor as on date amounts to **LIABILITY RS. 40,96,610.27 (RUPEES FORTY LAKH NINETY SIX THOUSAND SIX HUNDRED & TEN AND TWENTY SEVEN PAISA ONLY)** -the details of which together with the future interest rate are stated in schedule C hereunder. It is further stated that the borrower/Guarantor having failed to keep up with the terms of the above said agreement in clearing the dues of the secured creditor within the time given, and have been evasive in settling the dues. The operation and conduct of the above said financial assistance/ credit facility having come to a standstill and as a consequence of the default committed in repayment of principal debt. Instalment and interest thereon, the secured creditor was constrained to classify the debt as Non-Performing Asset (NPA) as on 01/10/2026 in accordance with the directives/guidelines relating to asset classification issued by the Reserve Bank of India.
The secured creditor to through this notice brings to your attention that the borrower has failed and neglected to repay the said dues/ outstanding liabilities and hence hereby demand you under Section 13(2)of the Act, by issuing this notice to discharge in full the liabilities of the borrower as stated in Schedule C hereunder to the secured Creditor within 60 days from the date of receipt of this notice that you are also liable to pay future interest at the rate of **12.25 % (10.25% +2% penal interest)** Per Annum for **Account no. 0217256005110** together with all costs, charges, expenses and incidental expenses with respect to the proceedings undertaken by the secured creditor in recovering its dues.
The security interest on the secured assets is duly registered with **CERSAI with CERSAI ID-400087051361 and CERSAI Registration date- 21-01-2025.**
Please take note of the fact that if you fail to repay to the secured creditor the aforesaid sum of LIABILITY RS. 40,96,610.27 (RUPEES FORTY LAKH NINETY SIX THOUSAND SIX HUNDRED & TEN AND TWENTY SEVEN PAISA ONLY) together with further interest and incidental expenses and costs as stated above in terms of this notice under Sec.13(2) of the Act, the secured creditor will exercise all or any of the rights detailed under sub- section (4) (a) and (b) of Section 13, the extract of which is given here below to convey the seriousness of this issue:
13(4)- In case the borrower/Guarantor fails to discharge liability in full within the period specified in sub section (2), the secured creditor may take recourse to one or more of the following measures to recover his secured debt, namely;
a) Take Possession of the secured assets of the Borrower/Guarantor including the right to transfer by way of lease, assignment or sale for realizing the secured asset;
b) Take over the management of the business of the borrower including the right to transfer by way of lease, assignment or sale for realizing the secured asset:
Provided that the right to transfer by way of lease, assignment or sale shall be exercised only where the substantial part of the business of the borrower is held as security for the debt;
Provided further that where the management of the whole of the business or part of the business is severable, the secured creditor shall take over the management of such business of the borrower which is relatable to the security for the debt; And under other applicable provisions of the said Act.
Your attention is invited to provisions of sub section (8) of Section 13, in respect of time available, to redeem the secured assets.
You are also put on notice that in term of Section. 13(13) the borrower/ Guarantor shall not transfer by way of sale, lease or otherwise the said secured assets detailed in Schedule B hereunder without obtaining written consent of the secured creditor. It is further brought to your notice that any contravention of this statutory injunction/restrain, as provided under the said act, is an offence and if for any reason, the secured assets are sold or leased out in the ordinary course of business, the sale proceeds or income realized shall be deposited with the secured creditor. In this regard you shall have to render proper accounts of such realization/income.
This notice of Demand is without prejudice to and shall not be construed as waiver of any other rights or remedies which the secured creditor may have including further demands for the sums found due and payable by you.
This is without prejudice to any other rights available to the secured creditor under the Act and/or any other law in force.
Please comply with the demand under this notice and avoid all unpleasantness. In case of no-compliance, further needful action will be resorted to, holding you liable for all costs and consequence.
Thanking You.
Yours Faithfully,
AUTHORISED OFFICER
